STRENGTHS

- 👤 **Clinical judgment**
When symptoms shift quickly, reassessment, risk review, and a clear safety plan keep care grounded.
- 👥 **NP collaboration**
Chart reviews and practical case consultation give Psychiatric Nurse Practitioners timely support without blurring accountability.
- ❤️ **Virtual care**
Secure video visits became a dependable way to reach patients across states and maintain thoughtful follow up.
- 🔗 **Care coordination**
Therapists and medical clinicians received clear treatment updates, which helped patients move through care with fewer gaps.
- ⚙️ **Workflow insight**
Clinical observations from daily practice helped operations and product partners improve routing, documentation, and usability.

SUMMARY

Board certified **Psychiatrist** with 13 years of post residency clinical experience across outpatient psychiatry, **telemedicine**, collaborative care, medication management, and Psychiatric Nurse Practitioner supervision. Provides **video based psychiatric consultations**, diagnostic assessment, risk evaluation, psychopharmacology, chart review, and longitudinal treatment planning for adults with common and complex conditions. Maintains active, unrestricted medical licenses in North Carolina, Virginia, and Georgia, supporting multi state virtual practice. Coordinates closely with therapists, primary care clinicians, behavioral health teams, and operations partners to preserve continuity, safety, and timely follow up. Advises product and engineering teams on clinical workflows, consultation documentation, patient safety, and practical telehealth improvements while exercising independent judgment under applicable laws and **professional standards**.

EXPERIENCE

Collaborative Psychiatrist

Piedmont Behavioral Telehealth Partners 📅 January 2023 - Present 📍 Charlotte, NC

Leads multi state virtual **psychiatric care** and formal collaboration for **Psychiatric Nurse Practitioners**. Supports adult patients through video visits, medication management, chart review, consultation, care coordination, and workflow guidance for clinical operations and product teams.

- Delivered video based psychiatric evaluations and **medication management** for adults across multiple licensed states.
- Completed required NP **chart reviews** and provided timely consultation for complex diagnostic and medication questions.
- Coordinated **therapists** and clinicians around risk concerns, medication changes, and unified treatment plans.
- Maintained responsive virtual collaboration coverage through secure tools and structured clinical workflows.
- Advised product and **operations teams** on chart routing, documentation, and telehealth usability improvements.
- Documented clinical guidance while preserving independent practitioner responsibilities and escalation pathways.

Staff Psychiatrist

Carolina Mind & Wellness Group 📅 July 2019 - December 2022 📍 Charlotte, NC

Managed outpatient and telemedicine psychiatry for adults with mood, anxiety, trauma related, attention, and other conditions. Partnered with Psychiatric Nurse Practitioners, therapists, primary care clinicians, and operations staff to support safe treatment and dependable follow up.

- Managed outpatient psychiatric assessments and evidence based medication plans for varied adult presentations.
- Expanded **telemedicine** services while preserving diagnostic rigor, informed prescribing, and clear documentation.
- Consulted with **Psychiatric Nurse Practitioners** on treatment planning, medication questions, and escalation decisions.
- Coordinated therapists and primary care clinicians when behavioral and medical concerns overlapped.
- Applied state prescribing requirements while balancing response, adverse effects, safety, and patient preferences.
- Refined virtual visit templates and handoffs with operations staff for consistent follow up.

Attending Psychiatrist

Blue Ridge Community Psychiatry 📅 August 2016 - June 2019 📍 Asheville, NC

MY CAREER

● Collaborative Psychiatrist at Piedmont Behavioral Telehealth Partners (3.8 Years)

● Staff Psychiatrist at Carolina Mind & Wellness Group (3.4 Years)

● Attending Psychiatrist at Blue Ridge Community Psychiatry (2.8 Years)

● Psychiatrist at Queen City Medical Center (3 Years)

Provided community outpatient psychiatry, longitudinal medication management, and physician consultation for advanced practice clinicians. Coordinated integrated behavioral, social, and physical health support while building early experience with secure video follow up.

- Delivered psychiatric evaluations and **medication management** for diverse community patients across care settings.
- Created individualized plans using clinical history, mental status findings, evidence, and patient goals.
- Consulted advanced practice clinicians on difficult presentations, medication selection, and higher care thresholds.
- Coordinated therapists, social workers, and medical clinicians around integrated patient needs.
- Maintained timely documentation for medication changes, risk concerns, referrals, and treatment adjustments.
- Established secure video follow up for geographically dispersed patients requiring continued **psychiatric care**.

Psychiatrist

Queen City Medical Center 📅 July 2013 - July 2016 📍 Charlotte, NC

Provided independent outpatient psychiatric practice after residency, including comprehensive assessment, diagnosis, medication management, urgent reassessment, safety planning, and coordination with therapists and referring clinicians.

- Conducted comprehensive psychiatric evaluations using structured histories and mental status examinations.
- Managed adult ambulatory presentations through differential **diagnosis** and evidence based treatment selection.
- Monitored medication efficacy, tolerability, adherence, and safety during scheduled follow up.
- Communicated treatment recommendations with therapists and referring clinicians across shared patient care.
- Reassessed urgent symptom changes, evaluated risk, and referred patients when higher care was indicated.
- Strengthened documentation and patient **communication** practices supporting informed consent and continuity.

PROJECTS

Multi State Virtual Psychiatry Collaboration 📅 2025

Built a practical collaboration model for remote psychiatric care, combining NP chart reviews, clinical consultation, secure communication, and state aware workflows. The work supported continuity when schedules changed and gave clinical and operations partners clearer paths for escalation.

Telehealth Workflow Review 📅 2024

Reviewed virtual care workflows with product and operations colleagues, focusing on consultation routing, documentation, patient safety, and clinician usability. Shared observations grounded in daily psychiatric practice and distributed team needs.
