SUMMARY

Public works maintenance professional with five years of progressive field experience supporting traffic control, roadway maintenance, pavement markings, signage, municipal construction, landscaping, and customer service. Holds a valid Arizona Driver License and **temporary traffic control certification**, with hands on experience operating trucks, trailers, power tools, and field equipment under established safety procedures. Inspects, cleans, and maintains assigned vehicles and equipment, identifies mechanical concerns, and records work orders, supplies, locations, and completed activity in **asset management software**. Performs dependable field work during changing priorities, **rotating on call coverage**, outdoor assignments, and active roadway operations. Supports safe **temporary traffic control**, organized crews, accurate documentation, and responsive service for internal departments and community members.

EXPERIENCE

Maintenance Associate II, Traffic Operations

Sonoran Traffic Maintenance 📅 May 2024 - Present 📍 Mesa, AZ

Supports municipal roadway assignments involving traffic signs, pavement markings, temporary traffic control, trucks, equipment, work orders, supplies, and customer requests. Handles daily field priorities and **rotating on call coverage** while maintaining safe operations, accurate records, equipment readiness, and dependable service.

- Maintained traffic signs and **pavement markings** across municipal roadway assignments with safe daily field staging
- Established **temporary traffic control** for maintenance work, protecting crews and guiding motorists through active areas
- Operated light and medium duty trucks with **pre use checks**, reporting mechanical concerns for repair
- Inspected and cleaned assigned equipment, preserving readiness for scheduled work and rotating on call response
- Recorded **work orders**, supplies, locations, and completion notes in **asset management software** for reliable follow up
- Resolved service requests from municipal staff and community contacts through clear field communication and routing

Traffic Maintenance Technician, Roadway Services

Copper State Road Services 📅 January 2023 - April 2024 📍 Tempe, AZ

Completed roadway service assignments involving regulatory, warning, and guide signs, **pavement markings**, lane control, equipment, materials, work orders, and on call repairs. Improved field readiness through careful inspections, organized **supplies**, safe work areas, and accurate electronic records.

- Replaced damaged regulatory, warning, and guide signs, confirming installation condition before reopening work areas
- Refreshed pavement markings with approved methods while coordinating lane control and equipment positioning
- Selected hand and **power tools** for sign hardware, posts, surface preparation, and **roadway maintenance** tasks
- Transported materials with trucks and trailers, documenting defects before mechanical issues affected schedules
- Updated electronic **work orders** with completed tasks and supply consumption for recurring maintenance planning
- Restored damaged **traffic control** assets during on call responses after securing work areas and assessing needs

Public Works Maintenance Technician, Street Operations

Valley Street & Sign Services 📅 October 2021 - December 2022 📍 Chandler, AZ

STRENGTHS

- 🚧 **Traffic Control**
Placed temporary devices with care during active roadway work, helping crews and motorists move safely.
- 🔧 **Equipment Care**
Routine inspections and cleaning became part of every shift, keeping trucks and tools ready for response.
- ♥️ **Field Documentation**
Accurate work orders gave supervisors a clearer view of completed activity, supplies, and follow up needs.
- 👥 **Public Service**
Customer requests received a calm response in the field, with issues routed clearly when support was needed.
- 🚦 **Safety Focus**
Pre use checks and organized staging shaped daily work, especially during changing roadway conditions.

MY CAREER

● Maintenance Associate II, Traffic Operations at Sonoran Traffic Maintenance (2.4 Years)

● Traffic Maintenance Technician, Roadway Services at Copper State Road Services (1.2 Years)

● Public Works Maintenance Technician, Street Operations at Valley Street & Sign Services (1.2 Years)

Supported street maintenance, minor construction, signs, pavement markings, cleanup, **landscaping**, temporary traffic control, trucks, tools, and digital work orders. Built practical field judgment through changing priorities, supervised roadway assignments, safe equipment use, and reliable service communication.

- Completed street maintenance, sign work, **pavement markings**, minor **construction**, cleanup, and landscape tasks
- Established **temporary traffic control** devices under crew direction, building practical awareness of roadway hazards
- Operated pickup trucks and maintenance equipment through inspection, backing, loading, and tool safety procedures
- Repaired sign assemblies and prepared surfaces with hand and **power tools** during routine field assignments
- Logged completed work and supply use in digital records, supporting scheduling and material replenishment
- Responded to customer requests and changing priorities with clear communication and consistent public safety focus

PROJECTS

Municipal Sign and Marking Readiness 📅 2024

Supported recurring roadway assignments by organizing signs, marking supplies, work vehicles, and field equipment for safe daily execution. Accurate records improved follow up and supply planning.

On Call Traffic Asset Response 📅 2023

Helped restore damaged traffic control assets during urgent field responses. Secured work areas, assessed immediate needs, and returned essential devices to service within crew scope.

LEADERSHIP & AWARDS

- Recognized by supervisors for dependable on call response and consistent equipment readiness.
- Trusted with accurate work order records, supply reporting, and customer service follow up.
- Selected for recurring traffic control assignments requiring careful field judgment and safe crew support.
