SUMMARY

Registered Nurse with seven years of progressive practice across skilled nursing, **long term care**, rehabilitation, and medically complex adult care. Licensed in Louisiana, with direct experience completing comprehensive **nursing assessments**, admission treatment plans, **medication administration**, intravenous therapy, central line care, parenteral nutrition, **blood component administration**, ventilatory support, triage, and specialized nursing interventions. Leads evening and night operations through structured rounds, timely recognition of physical and behavioral changes, physician order coordination, and precise clinical documentation. Provides calm first line oversight for nursing services, supports interdisciplinary teams, and communicates clearly during admissions, transfers, and changes in condition. Clinical practice connects careful observation with safe treatment execution, compassionate care, and appropriate escalation for older adults and veterans. Prepared to contribute dependable bedside judgment and collaborative leadership in complex long term care.

EXPERIENCE

Registered Nurse, Charge Nurse

Bayou Ridge Skilled Nursing Center 📅 June 2023 - Present 📍 Lafayette, LA

Directs evening nursing operations for a 120 bed skilled nursing center, guiding assignments, rounds, admissions, physician communication, specialized therapies, documentation review, and escalation for medically complex residents.

- Directed evening care across a 120 bed center, coordinating assignments, rounds, orders, and escalation.
- Converted physical and behavioral changes into timely interventions through comprehensive resident assessments.
- Managed **I.V. medications**, **central line therapy**, parenteral nutrition, and blood component administration safely.
- Led admissions through nursing assessments, **medication reconciliation**, risk screening, and initial **treatment planning**.
- Provided **ventilatory support** and **specialized equipment** care during acute clinical changes.
- Reviewed treatment records and nursing observations, correcting documentation gaps during evening rounds.

Registered Nurse

Acadiana Continuing Care 📅 March 2021 - May 2023 📍 Broussard, LA

Managed medically complex adult care involving **restorative services**, medication management, **wound care**, intravenous treatment, central line support, nutrition therapies, admissions, and interdisciplinary coordination.

- Managed restorative care, wound treatment, **medication administration**, and intravenous therapy for complex adults.
- Clarified **physician orders** and coordinated implementation with nursing, pharmacy, rehabilitation, dietary, and laboratory teams.
- Initiated peripheral I.V. therapy, administered medications, collected specimens, and completed **bedside tests**.
- Recognized respiratory, neurological, and hemodynamic deterioration through structured rounds and reassessment.
- Supported central line and nutrition therapies through access site care and tolerance monitoring.
- Strengthened admission handoffs with baseline assessments, treatment priorities, and follow up needs.

Staff Registered Nurse

Magnolia Post Acute Care 📅 July 2019 - February 2021 📍 New Iberia, LA

STRENGTHS

Clinical Assessment

Regular rounds connected physical and behavioral changes with timely interventions, provider updates, and safer resident care.

Treatment Planning

Admission assessments became clear initial plans, giving nursing and interdisciplinary teams a practical starting point.

Medication Safety

Oral, intramuscular, and intravenous therapies were delivered with ordered checks and close response monitoring.

Calm Triage

During unexpected changes, focused reassessment supported clear escalation decisions and helped teams act without confusion.

Team Guidance

Evening charge work gave peers steady direction during rounds, admissions, orders, and specialized treatments.

MY CAREER

● Registered Nurse, Charge Nurse at Bayou Ridge Skilled Nursing Center (3.3 Years)

● Registered Nurse at Acadiana Continuing Care (2.2 Years)

● Staff Registered Nurse at Magnolia Post Acute Care (1.6 Years)

● Graduate Registered Nurse at Crescent City Rehabilitation Hospital (1 Years)

Delivered direct nursing care for older adults recovering from hospitalization, supporting cardiopulmonary, infectious, diabetic, respiratory, mobility, medication, admission, and documentation needs.

- Delivered direct care for older adults managing cardiopulmonary disease, infections, diabetes, and mobility limits.
- Completed rounds and condition assessments, documenting treatment response and communicating significant findings.
- Administered oral, intramuscular, and intravenous medications with safety checks and response monitoring.
- Supported admissions and transfers by verifying orders and establishing baseline nursing findings.
- Used **oxygen** and specialized equipment while applying **triage** principles during unexpected symptom changes.
- Maintained nursing notes, medication records, and treatment documentation for safe handoffs.

Graduate Registered Nurse

Crescent City Rehabilitation Hospital 📅 June 2018 - June 2019 📍 Metairie, LA

Provided supervised rehabilitation nursing for adults recovering from neurological, orthopedic, and complex medical events, building clinical judgment through assessment, treatment, education, and interdisciplinary care.

- Provided supervised care for adults recovering from neurological, orthopedic, and complex medical events.
- Built **clinical** proficiency through assessment, **medication administration**, documentation, and patient education.
- Carried out physician directed treatments and communicated new orders during interdisciplinary handoffs.
- Initiated peripheral I.V. therapy and monitored medication response under established clinical policies.
- Contributed to **admission assessments** and individualized plans covering safety, skin, nutrition, and medications.
- Coordinated bedside care around rehabilitation schedules while supporting comfort, dignity, and functional progress.

PROJECTS

Complex Care Admission Improvement 📅 2026

Improved admission consistency by organizing baseline assessments, medication reconciliation, risk screening, treatment priorities, and interdisciplinary follow up needs for complex residents.

Night Shift Clinical Oversight 📅 2025

Strengthened evening clinical oversight through structured rounds, documentation review, physician communication, escalation decisions, and coordinated responses to changing resident conditions.

LEADERSHIP & AWARDS

- Recognized by nursing peers for dependable evening shift guidance during complex resident care.
- Commended for clear admission handoffs and consistent documentation across interdisciplinary care teams.
- Entrusted with charge nurse oversight for medically complex residents in a 120 bed center.
