SUMMARY

Compassionate Registered Nurse with over 9 months of experience in patient care, particularly skilled in post-anesthesia recovery. Shows proficiency in technical nursing skills and commitment to patient advocacy. Experience collaborating with multidisciplinary teams to deliver exceptional care and support for patients and families. Currently pursuing a Bachelor's degree in Nursing to enhance clinical expertise and leadership abilities. Proven ability to educate patients and their families effectively on care protocols while emphasizing safety and optimal recovery. Eager to contribute expertise towards advancing healthcare standards and improving patient outcomes.

EXPERIENCE

Registered Nurse 2

HealthCare Partners 📅 February 2026 - Present 📍 Chicago, IL

In the role of Registered Nurse 2, responsible for direct patient care in a post-anesthesia unit, ensuring effective monitoring and recovery progress. Engages in high-level collaboration within the medical team while utilizing evidence-based practices to manage diverse patient needs. Defines safety strategies that reveal substantial improvements in patient outcomes, signifying operational excellence.

- Provides direct patient care by monitoring vital signs and assisting with recovery processes after surgery.
- Utilizes evidence-based practices to address both physical and psychosocial needs across various patient demographics.
- Collaborates seamlessly with surgical and anesthesia teams, ensuring consistent care and swift responses to any patient updates.
- Implements rigorous patient safety measures like fall precautions and infection control, resulting in improved recovery metrics.
- Educates patients and their families thoroughly about recovery protocols and possible complications, leading to better compliance.
- Demonstrates strong leadership by guiding new hires and educating nursing students during their practical training.

Nursing Intern

University Medical Center 📅 June 2025 - January 2026 📍 Chicago, IL

Worked in various clinical settings as a Nursing Intern, gaining exposure to patient care requirements, supporting nurses through diverse responsibilities. Actively participated in skill-building exercises that fostered collaboration with interdisciplinary teams.

- Assisted nursing staff in high-quality patient care to enhance the overall healthcare experience.
- Conducted initial patient assessments and documented vital signs, contributing to accurate care planning.
- Participated in interdisciplinary rounds to critically discuss ongoing treatment plans, enhancing collaborative approaches.
- Engaged in ACLS and PALS educational programs, gaining essential knowledge in emergency response codes.
- Supported the creation of tailored care plans alongside licensed nursing staff and educators.
- Maintained a clean and safe environment throughout the facility, ensuring compliance with health regulations.

LEADERSHIP & AWARDS

- Dean's List, Chicago State University (2025)
- Nursing Scholarship Recipient, Chicago State University (2024)

STRENGTHS

Clinical Proficiency

Skilled at performing complex clinical assessments and creating effective care plans. Gained trust from patients through expertise.

Patient Advocacy

Committed to advocating for patients' needs and preferences, valued for compassionate care that resonates with individuals.

Interdisciplinary Collaboration

Worked closely with diverse healthcare professionals to design collective patient solutions; colleagues appreciate proactive communication.

Effective Educator

Adept at relaying complex health information to patients and families; energized by helping others gain understanding.

Leadership Skills

Mentored new associates, playing an essential role in their transition into practice. Often sought out for guidance in challenges.
