STRENGTHS

- ♥️ **Clinical Prioritization**
During busy multispecialty sessions, organized competing patient needs calmly and helped providers receive timely clinical information.
- 🗣️ **Patient Education**
Adapted teaching for language, literacy, age, and learning needs. Patients received clearer next steps and more confident follow up.
- 🔍 **Diagnostic Accuracy**
Handled EKGs, waived testing, screenings, and specimens with steady attention. Colleagues relied on clean preparation and clear records.
- 👥 **Care Coordination**
Connected patients, physicians, referrals, and radiology through Epic workflows. A warm handoff often prevented one more missed detail.
- ♥️ **Safety Leadership**
Kept logs, PPE practices, equipment checks, and sterilization work current. Speaking up early helped protect patients and coworkers.

SUMMARY

Registered Nurse with five years of clinical experience, including more than two years supporting ambulatory and primary care patients in multispecialty outpatient settings. Provides safe, timely care through focused assessment, clinical prioritization, medication reconciliation, immunization services, specimen collection, diagnostic testing, and minor procedure support. Uses Epic, HIPAA compliant documentation, **CLIA waived testing** controls, OSHA safety practices, infection prevention, sterile technique, and PDSA improvement methods. Communicates clearly with patients, families, physicians, nursing colleagues, referral teams, and interpreters while adapting education for language, literacy, age, and learning needs. Active **Texas RN license**, BSN, **American Heart Association BLS** and ACLS credentials, and **ambulatory care** nursing certification support dependable practice. Brings calm coordination, respectful service, and sound judgment to every patient encounter.

EXPERIENCE

Registered Nurse, Ambulatory Care

Bayou City Ambulatory Care 📅 January 2025 - Present 📍 Houston, TX

Supports multispecialty ambulatory operations through direct nursing care, diagnostic procedures, patient education, Epic coordination, quality controls, and unit level clinical leadership.

- Prioritized concurrent clinic needs through rooming, assessments, and provider coordination during high volume sessions.
- Performed EKGs, glucose checks, urine testing, screenings, spirometry support, and specimen preparation for procedures.
- Administered immunizations and medications using **seven rights**, then documented responses and individualized patient teaching.
- Managed Epic **telephone triage** and in basket follow up, routing clinical findings and closing referral tasks.
- Maintained **CLIA waived logs**, temperature records, PPE practices, equipment checks, and **biohazard disposal** standards.
- Supported **PDSA improvement** and accreditation readiness by reinforcing **National Patient Safety Goals** during daily operations.

Registered Nurse, Primary Care

Gulfview Medical Group 📅 July 2023 - December 2024 📍 Sugar Land, TX

Delivered primary care nursing across adult and family medicine clinics, coordinating assessments, procedures, diagnostics, referrals, education, supplies, and safe patient flow.

- Completed focused assessments, rooming, **medication reconciliation**, education, and documentation for scheduled and same day visits.
- Prepared urine, culture, **Pap smear**, and biopsy specimens with accurate labeling, handling, and **laboratory transport**.
- Supported examinations and minor procedures through **sterile technique**, instrument preparation, and efficient room turnover.
- Administered vaccines, TB skin tests, and ordered medications under provider direction, documenting responses in Epic.
- Coordinated **specialty referrals** and diagnostic testing through clear instructions and warm handoffs between clinical services.
- Monitored **medication supplies**, equipment readiness, expiration dates, and par levels to protect daily clinic operations.

Registered Nurse

Lone Star Outpatient Partners 📅 June 2021 - June 2023 📍 Katy, TX

Provided outpatient nursing care for multiple patients while supporting emergency readiness, clinical documentation, education, **infection prevention**, telephone service, and escalation of safety concerns.

MY CAREER

● Registered Nurse,
Ambulatory Care at Bayou City
Ambulatory Care (1.8 Years)

● Registered Nurse, Primary
Care at Gulfview Medical Group
(1.4 Years)

● Registered Nurse at Lone
Star Outpatient Partners (2
Years)

- Prioritized multiple outpatient needs using clinical judgment, reporting changes promptly and supporting provider decisions.
- Completed CPR readiness checks, **oxygen administration**, IV therapy, waived testing, EKGs, and **specimen collection**.
- Reinforced medication and follow up teaching by adapting communication for comprehension, language, and learning barriers.
- Protected confidential records through accurate legal and ethical documentation aligned with **HIPAA** requirements.
- Completed **sterilization** logs after competency validation and maintained clean clinical areas through hand hygiene and **PPE**.
- Supported patient service standards through accurate telephone messages and timely escalation of complaints or safety concerns.

PROJECTS

Ambulatory Quality Controls 📅 2025

Built a dependable daily control routine for CLIA waived testing, temperature monitoring, equipment checks, and infection prevention documentation. Clear logs helped staff address issues early and support accreditation readiness.

Primary Care Referral Flow 📅 2024

Coordinated specialty referrals and diagnostic testing across primary care visits. Clear instructions, warm handoffs, and closed Epic follow up helped patients move forward with fewer missed details.

LEADERSHIP & AWARDS

- Recognized by ambulatory colleagues for dependable clinical resource support during high volume sessions.
- Commended for respectful patient communication, accurate documentation, and reliable referral coordination.
- Selected as a trusted contributor to PDSA improvement and accreditation readiness activities.

EDUCATION

Bachelor's Degree in Nursing

University of Houston 🎓 GPA: 0 📅 2021 📍 Houston, TX

Coursework: *Clinical nursing, pharmacology, health assessment, community health*
