SUMMARY

Registered Nurse with seven years of pediatric nursing experience across **hematology and oncology**, ambulatory infusion, emergency care, and intensive care. Provides safe, compassionate care for children receiving chemotherapy, biotherapy, immunotherapy, blood products, and complex supportive therapies. Uses focused assessment, clinical judgment, **evidence based protocols**, and nursing process priorities to recognize changes and coordinate timely intervention. Skilled in **peripheral IV access**, infusion monitoring, medication safety, Epic documentation, family education, and interdisciplinary communication. Current **Wisconsin RN license**, BSN, CPHON credential, and PALS certification support pediatric specialty practice. Participates in quality improvement, staff education, continuing education, and workflow updates. Brings dependable execution, calm communication, and respectful family relationships to busy ambulatory care settings while supporting consistent clinical outcomes.

EXPERIENCE

Pediatric Infusion Registered Nurse

Lakefront Pediatric Specialty Clinic 📅 July 2024 - Present 📍 Madison, WI

Supports **pediatric hematology and oncology** patients in **ambulatory infusion**, coordinating concurrent therapies, monitoring treatment response, documenting care in Epic, educating families, and contributing to safe clinical workflow improvements.

- Coordinated pediatric **chemotherapy** and biotherapy plans, supporting safe concurrent treatment delivery.
- Performed focused assessments during infusions, identifying reactions through pediatric oncology protocols.
- Established **peripheral IV access**, verified patency, and prepared treatment parameters before therapy.
- Recorded medication administration and treatment response in Epic, supporting continuity across teams.
- Educated caregivers about symptoms, home precautions, and age appropriate treatment expectations.
- Shared infusion safety findings during **quality reviews**, **staff education**, and workflow updates.

Pediatric Hematology and Oncology Registered Nurse

Prairie Children's Cancer Center 📅 June 2022 - June 2024 📍 Milwaukee, WI

Delivered scheduled treatment and urgent evaluation care for pediatric hematology and oncology patients, combining high acuity assessment, vascular access, infusion safety, Epic documentation, and interdisciplinary escalation.

- Delivered **pediatric hematology and oncology** care using laboratory findings and patient condition.
- Administered chemotherapy, **immunotherapy**, biotherapy, and **blood products** with safety checks.
- Managed central and peripheral access, **specimen collection**, and **infection prevention** practices.
- Captured treatment details and escalation in Epic for physicians, pharmacists, and nurses.
- Applied PALS knowledge during acute symptoms, supporting stabilization and indicated transfer.
- Completed oncology **continuing education** and shared practice updates during in service sessions.

Pediatric Emergency Registered Nurse

Capitol Regional Medical Center 📅 June 2020 - May 2022 📍 Madison, WI

Managed urgent pediatric presentations in a high volume emergency setting, providing rapid assessment, **vascular access**, medication delivery, stabilization, Epic documentation, and coordinated disposition planning.

- Managed pediatric emergencies from dehydration through respiratory distress and treatment complications.

STRENGTHS

- 👂 **Clinical assessment**
During urgent pediatric changes, focused reassessment helped identify concerns early and guide timely escalation for safer care.
- 🔧 **Infusion coordination**
Concurrent therapies required careful sequencing, and organized preparation kept treatment moving without losing patient focus.
- 💡 **Family education**
Clear explanations helped children and caregivers recognize symptoms, follow precautions, and feel more prepared at home.
- 📄 **Documentation**
Epic records captured treatment details and responses clearly, giving each clinician a dependable view of ongoing care.
- 🗣️ **Team communication**
When patient needs changed, direct updates connected nurses, physicians, pharmacy, and families around practical next steps.

MY CAREER

● Pediatric Infusion Registered Nurse at Lakefront Pediatric Specialty Clinic (2.2 Years)

● Pediatric Hematology and Oncology Registered Nurse at Prairie Children's Cancer Center (2 Years)

● Pediatric Emergency Registered Nurse at Capitol Regional Medical Center (1.9 Years)

● Pediatric Intensive Care Registered Nurse at Northwoods Children's Hospital (11 Months)

- Initiated **peripheral IV access**, collected specimens, and administered fluids during competing priorities.
- Recognized deterioration and activated escalation pathways using **PALS** stabilization principles.
- Coordinated physicians, pediatric teams, pharmacy, and specialty services for safe disposition.
- Maintained accurate **Epic** records covering assessments, medications, education, and disposition.
- Explained clinical plans and return precautions, helping families remain informed during urgent care.

Pediatric Intensive Care Registered Nurse

Northwoods Children's Hospital 📅 June 2019 - May 2020 📍 Green Bay, WI

Provided closely monitored care for critically ill pediatric patients, managing complex medications, vascular access, blood products, family communication, and rapid changes across high acuity assignments.

- Provided monitored care for critically ill pediatric respiratory, neurologic, and postoperative patients.
- Trended assessments and communicated significant clinical changes promptly to intensivists.
- Managed complex medication schedules, **vascular access**, **blood products**, and bedside monitoring.
- Documented high acuity assessments, interventions, response, and family communication in Epic.
- Applied structured prioritization during changing assignments and supported safe unit transitions.
- Participated in case review, unit education, and performance improvement activities.

PROJECTS

Pediatric Infusion Safety Review 📅 2026

Reviewed infusion documentation and treatment workflows, then shared practical updates that supported safer monitoring, clearer records, and consistent family education.

Pediatric Oncology Education Initiative 📅 2024

Created and shared practice updates during in service education, connecting oncology continuing education with daily chemotherapy, immunotherapy, and blood product care.

LEADERSHIP & AWARDS

- Certified Pediatric Hematology Oncology Nurse credential earned in 2024, reflecting specialty knowledge in pediatric cancer care.
- Recognized through ongoing staff education contributions supporting safer pediatric infusion documentation and treatment workflows.
- Selected as a dependable clinical resource during high acuity pediatric assignments and urgent treatment changes.

EDUCATION

Bachelor's Degree in Nursing

University of Wisconsin Oshkosh 🎓 GPA: 3.5 📅 2019 📍 Oshkosh, WI

Coursework: Pediatric nursing, hematology and oncology nursing, pharmacology, evidence based practice

CERTIFICATIONS
