SUMMARY

Registered Nurse with three years of hospital nursing experience across emergency, medical surgical, and telemetry settings. Provides **patient centered care** through assessment, individualized planning, **nursing interventions**, clinical reassessment, and accurate documentation. Manages acute medical, surgical, chronic, and minor injury presentations while maintaining patient safety, advocacy, and appropriate treatment priorities. Uses telemetry interpretation, focused assessment, and concise escalation when patient conditions change. Coordinates physicians, supportive personnel, ancillary services, diagnostics, and transitions of care during demanding day shifts. Educates patients and families about diagnoses, disease processes, medications, warning signs, follow up needs, and care plans through teach back. Holds an active Florida **Registered Nurse** license, **American Heart Association** BLS and ACLS credentials, and TNCC training. Brings calm prioritization and dependable teamwork to high acuity emergency care.

EXPERIENCE

Emergency Department Registered Nurse

Gulfview Regional Hospital 📅 July 2025 - Present 📍 Tampa, Florida

Supports adult emergency care across acute medical, surgical, chronic, and **minor injury** presentations. Manages day shift assignments, coordinates interdisciplinary services, directs delegated work, and protects **patient safety** through timely assessment, intervention, education, and reassessment.

- Prioritized emergency patients through rapid **assessment**, improving care sequencing during demanding **day shift** assignments.
- Interpreted telemetry trends with vital signs, escalating rhythm changes to emergency physicians for timely intervention.
- Coordinated laboratory, imaging, respiratory, pharmacy, and transport services across complex emergency patient encounters.
- Educated families through teach back, clarifying diagnoses, medications, warning signs, and discharge plans.
- Directed **supportive personnel** within scope, verified delegated tasks, and incorporated findings into nursing evaluations.
- Contributed to unit huddles and practice reviews, strengthening handoffs, reassessment, and **patient advocacy**.

Medical Surgical Telemetry Registered Nurse

Suncoast Community Hospital 📅 June 2023 - June 2025 📍 Clearwater, Florida

Delivered **hospital nursing** care for adults with cardiac, respiratory, gastrointestinal, postoperative, and chronic conditions. Combined telemetry surveillance, nursing process application, interdisciplinary coordination, **patient education**, delegated care support, and transition planning across changing acuity.

- Managed cardiac, respiratory, gastrointestinal, postoperative, and chronic conditions across **medical surgical** telemetry assignments.
- Built prioritized care plans from focused assessments, then evaluated responses after medications and procedures.
- Monitored cardiac rhythms and clinical trends, communicating meaningful changes through structured physician updates.
- Coordinated case management, rehabilitation, pharmacy, and **ancillary services** for diagnostic and discharge progression.
- Educated patients and **families** on disease processes, medication routines, recovery expectations, and safety precautions.
- Advocated during condition changes and transitions, maintaining accurate documentation and reinforcing delegated care practices.

STRENGTHS

- 🚑 **Emergency Prioritization**
Rapid assessment shaped safe care plans during varied emergency assignments, and peers valued calm clinical decisions.
- 💓 **Telemetry Vigilance**
Rhythm trends were paired with focused assessments, helping physicians respond quickly when patient conditions shifted.
- 👨 **Family Education**
Teach back made complex diagnoses and discharge instructions clearer, giving families more confidence during stressful encounters.
- 🏥 **Care Coordination**
Laboratory, imaging, pharmacy, and transport needs stayed organized, keeping patient treatment steps moving smoothly.
- 👤 **Delegated Care**
Supportive personnel received clear assignments and follow up, creating dependable teamwork within nursing scope.

MY CAREER

3.2
YEARS

● Emergency Department
Registered Nurse at Gulfview
Regional Hospital (1.2 Years)

● Medical Surgical Telemetry
Registered Nurse at Suncoast
Community Hospital (2 Years)

PROJECTS

Emergency Care Reassessment Initiative 📅 2026

Supported a unit based improvement effort focused on timely reassessment, safe handoffs, patient education, and consistent emergency nursing workflows.

Telemetry Communication Workflow 📅 2025

Strengthened communication around rhythm changes by pairing telemetry trends, focused assessments, and concise updates for coordinated clinical response.

LEADERSHIP & AWARDS

- Recognized by emergency department peers for calm prioritization during high acuity patient assignments.
- Selected as a dependable resource for telemetry interpretation, clinical escalation, and patient family education.
- Contributed to unit based practice reviews focused on safer handoffs and timely reassessment.

EDUCATION

Associate of Science in Nursing

Hillsborough Community College 🎓 GPA: 4.0 📅 2023 📍 Tampa, Florida

Coursework: Medical surgical nursing, emergency nursing, telemetry monitoring, patient assessment

CERTIFICATIONS

- Registered Nurse, Florida 📅 2023
- Basic Life Support, American Heart Association 📅 2023
- Advanced Cardiac Life Support, American Heart Association 📅 2025
- Trauma Nursing Core Course 📅 2026

TECHNICAL SKILLS

- **Emergency Nursing:** Acuity assessment, triage prioritization, emergency interventions
- **Medical Surgical Care:** Adult acute care, postoperative care, chronic condition care
- **Telemetry Monitoring:** Cardiac rhythm monitoring, trend interpretation, clinical escalation
- **Nursing Process:** Assessment, care planning, implementation
- **Patient Education:** Teach back, discharge education, family instruction
- **Clinical Documentation:** Focused assessment, reassessment, nursing documentation
- **Care Coordination:** Physicians, ancillary services, interdisciplinary teams
- **Delegation Practices:** Supportive personnel, scope of practice, task verification
- **Life Support:** BLS, ACLS, American Heart Association
- **Trauma Nursing:** TNCC, trauma assessment, emergency stabilization
- **Patient Safety:** Patient advocacy, safe handoffs, treatment verification
- **Diagnostic Services:** Laboratory coordination, imaging coordination, transport coordination

PROFESSIONAL AFFILIATIONS

- Active Florida Registered Nurse license holder supporting safe hospital and emergency nursing practice.
- American Heart Association participant through current BLS and ACLS clinical credentials.
