STRENGTHS

- 🏠 **Clinical assessment**
Admission visits became a steady starting point for clear eligibility decisions and practical care plans.
- 👥 **Care coordination**
When several disciplines were involved, clear handoffs kept visits aligned and gave families one consistent plan.
- 🎓 **Patient education**
Teach back made medication and safety instructions easier for caregivers to use after visits ended.
- 💬 **Clinical communication**
Prompt updates about changing symptoms helped providers act sooner and strengthened confidence across care teams.
- 📅 **Independent organization**
Managing travel, documentation, and changing priorities across a community caseload kept care moving smoothly.

SKILLS

- Home Health Nursing
- RN Case Management
- Admission Visits
- Eligibility Assessment
- Care Plan Development
- Skilled Nursing Visits
- Patient Assessment
- Care Coordination

SUMMARY

Registered Nurse with 3 years of **patient centered care** experience across **home health** and **medical surgical** settings, including more than 2 years coordinating community based nursing episodes. Conducts admission visits, completes comprehensive assessments, reviews home health eligibility, and develops individualized plans of care guided by provider direction and patient needs. Delivers skilled nursing care in patient homes while monitoring symptoms, medications, functional concerns, safety risks, and caregiver capacity. Coordinates physicians, rehabilitation disciplines, social services, patients, caregivers, and community resources through clear clinical communication and timely plan updates. Provides practical education that supports medication adherence, symptom monitoring, safe mobility, and escalation decisions. Texas licensed with current CPR certification, driver's license, reliable transportation, and **automobile liability insurance**, prepared to support consistent, compassionate home care.

EXPERIENCE

Registered Nurse Case Manager

Lone Star Community Home Care 📅 June 2024 - Present 📍 Katy, TX

Coordinates community based **home health** episodes from admission through ongoing skilled visits, independently managing clinical priorities, care plans, travel, documentation, and interdisciplinary communication across a geographically distributed caseload.

- Completed **admission assessments** and eligibility reviews, establishing individualized home health **plans of care**.
- Delivered **skilled nursing visits**, monitoring symptoms, medications, function, and caregiver capacity during home episodes.
- Updated care plans from physician direction and clinical findings, clarifying priorities for each visit.
- Coordinated physicians, physical therapy, occupational therapy, and social services around shared patient goals.
- Taught patients and caregivers medication use, symptom monitoring, safety precautions, and escalation thresholds.
- Organized community visits and documentation, preserving continuity through timely clinical handoffs and updates.

Registered Nurse, Medical Surgical

Gulf Plains Medical Center 📅 October 2023 - May 2024 📍 Houston, TX

Provided acute and chronic patient care on a medical surgical unit, strengthening assessment, prioritization, education, discharge coordination, documentation, and communication skills that support independent home nursing practice.

- Managed adult **medical surgical** patients with varied acute and chronic conditions using prioritized nursing assessments.
- Recognized condition changes during focused and head to toe assessments, notifying providers promptly.
- Coordinated discharge preparation with caregivers, **case management**, pharmacy, and rehabilitation disciplines before home transition.
- Delivered medication administration, wound care, monitoring, and education within individualized treatment plans.
- Documented assessments, interventions, responses, and education in clinical records for cross shift continuity.
- Used teach back education to strengthen caregiver readiness and support safer recovery after hospitalization.
