STRENGTHS

- 👤 **Pediatric assessment**
During busy emergency shifts, structured reassessment helped identify subtle changes early and supported timely clinical escalation.
- 🗣️ **Family communication**
Caregivers often needed a calm explanation twice, and clear teaching helped them leave with confidence and practical next steps.
- 💊 **Medication safety**
Weight based medication checks became a steady bedside habit, protecting children through careful orders, allergies, dosing, and response review.
- 👥 **Team coordination**
When respiratory, imaging, pharmacy, and specialty teams converged, organized updates kept care moving without losing family connection.
- ❤️ **Patient advocacy**
Speaking up for developmental and communication needs helped shape safer evaluation, treatment, discharge, and disposition decisions.

SKILLS

Pediatric emergency nursing

Rapid assessment

Family centered care

Medication administration

Pediatric stabilization

Trauma response

Patient advocacy

Caregiver education

Interdisciplinary coordination

SUMMARY

Pediatric emergency **Registered Nurse** with five years of clinical nursing experience, including more than three years caring for infants, children, and adolescents in high acuity emergency settings. Provides rapid assessment, age appropriate interventions, safe medication administration, stabilization, trauma response, and **family centered** education. Coordinates care with pediatric emergency physicians, specialists, respiratory therapy, pharmacy, laboratory, imaging, and inpatient teams. Communicates diagnoses, treatment plans, warning signs, and discharge instructions in clear language that supports caregivers during stressful moments. Maintains Virginia RN licensure, BLS, ACLS, TNCC, NRP, and ENPC credentials, along with a **Bachelor of Science in Nursing**. Calm clinical judgment, careful escalation, and patient advocacy support safe evaluation, treatment, and disposition during busy **night shift** operations.

EXPERIENCE

Pediatric Emergency Department Registered Nurse

Blue Ridge Children's Medical Center 📅 June 2023 - Present 📍 Richmond, VA

Supports pediatric emergency operations for infants, children, and adolescents with acute medical, trauma, respiratory, neurologic, and developmental needs. Provides direct bedside care, coordinates interdisciplinary treatment, reinforces family education, and advocates during evaluation, stabilization, disposition, and safe transition.

- Completed structured pediatric assessments for respiratory distress, fever, injury, dehydration, and neurologic concerns.
- Coordinated high acuity **treatment** with physicians, respiratory therapy, pharmacy, imaging, laboratory, and specialty services.
- Administered weight based medications and IV therapies using allergy, dose, order, and response checks.
- Applied **BLS**, **ACLS**, **ENPC**, **NRP**, and **TNCC** principles during stabilization, **trauma response**, and resuscitation.
- Explained **diagnoses**, warning signs, **treatment plans**, and discharge instructions using family centered communication.
- Advocated for developmental, clinical, and communication needs during pediatric evaluation and **disposition**.

Registered Nurse, Emergency Services

James River Regional Hospital 📅 October 2021 - May 2023 📍 Midlothian, VA

Delivered emergency nursing care for adult and pediatric presentations while managing concurrent assessments, interventions, monitoring, documentation, and transitions. Built a strong foundation in emergency stabilization, caregiver communication, interdisciplinary coordination, and timely escalation before moving into dedicated pediatric emergency practice.

- Completed focused assessments and initiated ordered interventions for adult and pediatric emergency presentations.
- Managed IV access, specimen collection, cardiac monitoring, **medication administration**, and reassessment for concurrent patients.
- Used age appropriate communication and caregiver involvement during pediatric evaluation and treatment planning.
- Coordinated physicians, laboratory, imaging, respiratory therapy, and inpatient units through patient transitions.
- Applied **ACLS** and **BLS** frameworks during emergency response, stabilization, and changing clinical conditions.
- Reinforced follow up needs, medication precautions, and return symptoms during discharge education.

MY CAREER

Pediatric Emergency Department Registered Nurse at Blue Ridge Children's Medical Center (3.2 Years)

Registered Nurse, Emergency Services at James River Regional Hospital (1.6 Years)

PROJECTS

Pediatric Emergency Stabilization Practice 📅 2025

Supported a focused clinical practice initiative that connected pediatric assessment, trauma response, resuscitation credentials, and family communication during urgent care episodes.

Family Centered Discharge Education 📅 2024

Strengthened discharge teaching through plain language explanations, caregiver teach back, medication guidance, warning signs, and coordinated follow up planning.

LEADERSHIP & AWARDS

- Recognized by emergency nursing peers for calm communication during high acuity pediatric stabilization.
- Selected by clinical colleagues as a dependable resource for caregiver education and safe pediatric transitions.
- Received professional recognition for consistent interdisciplinary coordination during emergency patient flow.
