STRENGTHS

- ♥ **Clinical assessment**
Changed priorities quickly after subtle status changes, helping colleagues act with clearer clinical context.
- ♿ **Rehabilitation planning**
Connected mobility, safety, skin, pain, and education goals into care plans patients could follow.
- 🗣 **Patient education**
Used teach back during discharge preparation, and families left with greater confidence about next steps.
- 👥 **Team coordination**
Kept nursing, therapy, medical, and case management updates aligned when daily plans shifted.
- ♥ **Reliable documentation**
Recorded assessments, outcomes, and compliance work accurately, giving the care team dependable information.

SKILLS

Patient Assessment Care Planning
Outcome Evaluation
Patient Education
Interdisciplinary Coordination
Rehabilitation Nursing
Acute Care Nursing
Nursing Process
Medication Administration
Mobility Support Fall Prevention
Skin Integrity Discharge Education
Clinical Documentation
BLS Certification

SUMMARY

Registered Nurse with three years of **acute care** experience supporting adults through stroke recovery, orthopedic procedures, deconditioning, and complex medical illness. Provides systematic physiologic, psychological, and cognitive assessment, then builds prioritized plans around mobility, **skin integrity**, pain, medications, nutrition, elimination, safety, and functional goals. Uses ongoing reassessment to identify changes, evaluate outcomes, and adjust interventions with physicians, therapists, case managers, nursing assistants, patients, and families. Patient education covers medications, warning signs, safe transfers, **fall prevention**, self care, and discharge readiness, with teaching adapted to cognition and readiness. Holds an active **Connecticut Registered Nurse license**, BLS certification, and Bachelor of Science in Nursing. Brings sound bedside judgment, accurate documentation, physical readiness, and dependable collaboration to rehabilitation care.

EXPERIENCE

Registered Nurse, Medical Rehabilitation

Soundview Community Hospital 📅 April 2025 - Present 📍 Norwalk, CT

Supports adult rehabilitation patients recovering from stroke, orthopedic procedures, deconditioning, and complex illness. Leads shift level assessment, care planning, education, documentation, and interdisciplinary coordination while connecting acute surveillance with functional recovery goals.

- Assessed physiologic, **psychological**, and cognitive status for **rehabilitation** patients throughout each day shift.
- Prioritized mobility, skin integrity, pain, nutrition, elimination, medication, and fall prevention interventions.
- Coordinated physicians, physical therapists, occupational therapists, speech pathologists, **case managers**, and **nursing assistants**.
- Taught patients and families medications, warning signs, safe transfers, fall precautions, and discharge instructions.
- Evaluated intervention response, documented outcomes electronically, and updated priorities based on **patient progress**.
- Completed **infection prevention**, safety, regulatory, and compliance workflows during demanding rehabilitation shifts.

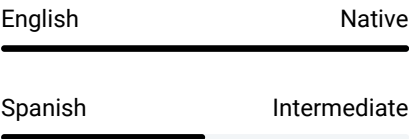

Registered Nurse, Medical Surgical Unit

Coastal Connecticut Medical Center 📅 October 2023 - March 2025 📍 Bridgeport, CT

Managed adult medical surgical care across varied acute diagnoses, balancing assessment, medication administration, mobility support, wound care, discharge preparation, and escalation. Worked with providers and support disciplines to maintain safe progression, clear handoffs, and accurate compliance records.

- Established shift priorities from **assessment** findings, provider orders, safety risks, and available resources.
- Performed focused reassessments, **medication administration**, wound care, **mobility support**, and post procedure monitoring.
- Translated diagnoses into measurable **care goals**, then revised interventions when patient **outcomes** changed.
- Prepared patients and families for discharge using medication teaching, teach back, and mobility guidance.
- Coordinated physicians, pharmacy, therapy services, case management, and support staff across care transitions.
- Maintained **BLS** readiness, electronic documentation, infection control, fall precautions, and unit compliance standards.

LANGUAGES

MY CAREER

- Registered Nurse, Medical Rehabilitation at Soundview Community Hospital (1.4 Years)
- Registered Nurse, Medical Surgical Unit at Coastal Connecticut Medical Center (1.4 Years)

PROJECTS

- Rehabilitation Transition Planning** 📅 2026
Built a practical transition planning workflow for adult rehabilitation patients, connecting education, mobility goals, medication teaching, safety needs, and follow up readiness in one coordinated bedside process.
- Interdisciplinary Recovery Rounds** 📅 2025
Supported structured recovery discussions that brought nursing observations, therapy progress, patient priorities, and discharge barriers into clearer daily care decisions.
