STRENGTHS

- 🎓 **Patient education**
Used teach back with patients and caregivers, then checked learning through follow up questions and practical discussion.
- 🔗 **Clinical judgment**
Reviewed changing assessment findings, selected appropriate interventions, and escalated concerns through proper clinical channels.
- 👥 **Team coordination**
Supported charge nurse priorities during busy clinic periods, keeping communication constructive when patient needs changed.
- ♥️ **Patient centered service**
Connected treatment instructions with individual learning needs, helping patients feel heard and prepared for home care.
- ☰ **Operational focus**
Organized assessments, treatments, documentation, and follow up around shifting patient flow without losing important details.

SUMMARY

California licensed **Registered Nurse** with one year of ambulatory nursing experience supporting safe, efficient, patient centered care and organized daily **clinical operations**. Applies the **nursing process** through focused assessment, clinical analysis, intervention selection, provider order execution, **patient education**, response evaluation, and timely escalation. Supports team coordination by prioritizing patient flow, communicating clearly with providers and nursing peers, and following through on documentation and treatment needs. Uses teach back with patients, families, and caregivers to confirm learning about medications, procedures, and home care. Maintains calm judgment during competing priorities while following scope, policy, practice standards, and clinical directives. Ready to contribute dependable nursing care, constructive teamwork, and emerging leadership in a busy ambulatory setting.

EXPERIENCE

Registered Nurse

Coastal Community Medical Group 📅 October 2025 to September 2026 📍 Costa Mesa, CA

- Provided ambulatory nursing care while coordinating assessments, provider directed treatments, education, follow up, documentation, and patient flow. Supported charge nurse priorities and communicated emerging clinical needs across medical assistants, providers, and nursing peers.
- Managed daily ambulatory assignments around assessments, treatments, education, and changing patient flow priorities.
 - Collected histories, vital signs, and symptoms, then identified interventions and escalated abnormal findings.
 - Implemented medication, diagnostic, and treatment orders within **RN** scope while monitoring patient response.
 - Used **teach back** and caregiver involvement for medication, procedure, and home care education.
 - Supported charge nurse coordination during high volume periods, improving room flow and task **prioritization**.
 - Resolved scheduling, treatment readiness, and documentation issues through **critical thinking** and clinic procedures.

PROJECTS

Ambulatory Patient Education Workflow 📅 2026

Created a patient education workflow using teach back, caregiver involvement, and follow up questions. Supported clearer understanding of medications, procedures, and home care instructions.

Clinical Flow Coordination Initiative 📅 2026

Supported daily outpatient flow by organizing room priorities, communicating emerging needs, and aligning nursing tasks with provider directed treatment plans.

LEADERSHIP & AWARDS

- Recognized for dependable follow through during changing ambulatory patient flow and competing clinical priorities.
- Commended for clear patient education, constructive team communication, and calm support during high volume clinic periods.
