STRENGTHS

- ♥️ **Tuberculosis case management**
Built individualized treatment plans around symptoms, medication toxicity, laboratory trends, follow up, and patient concerns.
- 🔗 **Clinical prioritization**
When abnormal results surfaced, reviewed urgency, documented findings, and routed concerns for timely provider action.
- 🗣️ **Patient education**
Used teach back during treatment discussions, helping patients and families connect precautions with everyday care decisions.
- 📅 **Immunization coordination**
Supported VFC vaccine workflows through CDC schedule review, inventory checks, ordering requests, and accurate documentation.
- 👥 **Community teamwork**
Worked with nurses, providers, and community partners to address follow up barriers and keep care moving.

SUMMARY

Registered Nurse with 4 years and 4 months supporting outpatient **public health** and communicable disease care. Provides **tuberculosis case management**, medication monitoring, laboratory follow up, immunizations, screening, patient education, and care coordination across diverse communities. Reviews symptoms, **medical history**, treatment regimens, toxicity profiles, and abnormal laboratory findings, then documents results in EMR systems and routes concerns for provider review. Supports blood draws, urine testing, vital signs, imaging coordination, vision and hearing assessments, physical examinations, procedures, discharge education, medication dispensing, and urgent response under BLS protocols. Brings active unrestricted Texas RN licensure, current AHA BLS certification, valid Texas driver license, bilingual health communication, and proficiency with Microsoft Office and EMR workflows. Ready to contribute thoughtful clinical judgment and dependable public health service in an outpatient tuberculosis program.

EXPERIENCE

Public Health Registered Nurse, Tuberculosis

Riverbend Community Clinic 📅 January 2024 - Present 📍 San Antonio, TX

Lead outpatient tuberculosis care management for adults, coordinating treatment plans, laboratory surveillance, medication services, immunizations, education, and provider communication. Support clinic operations while protecting continuity, safety, and patient understanding.

- Case managed tuberculosis treatment using symptom review, medical history, regimens, toxicity monitoring, and laboratory **follow up**.
- Reviewed EMR **laboratory results**, documented abnormal values, and routed significant findings for timely provider decisions.
- Coordinated blood draws, **urine testing**, vital signs, imaging orders, medication services, and education across clinic visits.
- Explained laboratory findings, treatment expectations, adherence priorities, and medication precautions through patient centered teach back.
- Administered age appropriate vaccines using **CDC recommendations** while supporting VFC storage, inventory, ordering, and documentation.
- Supported examinations, procedures, **prescribed medication** dispensing, **discharge education**, and urgent response using BLS protocols.

Registered Nurse, Community Health

South Texas Preventive Health Center 📅 June 2022 - December 2023 📍 New Braunfels, TX

Delivered **outpatient** communicable disease and preventive health nursing, connecting screening, immunization, laboratory follow up, education, and community coordination with timely patient care. Managed varied clinical priorities within public health protocols.

- Delivered communicable disease visits using **public health** protocols for screening, **follow up**, immunization, and education.
- Performed venipuncture, urine collection, **vital signs**, vision screening, hearing screening, and complete clinical intake.
- Monitored **EMR** laboratory queues, prioritized abnormal findings, and connected provider review with patient follow up.
- Administered CDC recommended **immunizations** across age groups while maintaining vaccine records and replenishment requests.
- Counseled patients on results, prevention practices, medication instructions, and follow up needs using clear language.
- Coordinated nurses, providers, and community partners around follow up barriers across a diverse outpatient population.

Registered Nurse, Outpatient Care

Coastal Family Health Services 📅 June 2021 - May 2022 📍 Corpus Christi, TX

MY CAREER

- Public Health Registered Nurse, Tuberculosis at Riverbend Community Clinic (2.8 Years)
- Registered Nurse, Community Health at South Texas Preventive Health Center (1.5 Years)
- Registered Nurse, Outpatient Care at Coastal Family Health Services (11 Months)

Supported outpatient nursing operations through assessment, documentation, screening, medication administration, immunization, procedure preparation, discharge teaching, and supervised clinical follow up. Built reliable prioritization and EMR documentation habits.

- Managed assigned outpatient visits under established protocols, strengthening assessment, documentation, and clinical **prioritization** skills.
- Completed intake assessments, vital signs, specimen collection, and screening procedures with accurate EMR documentation.
- Administered prescribed medications and routine immunizations after verifying orders, identity, contraindications, and documentation.
- Prepared patients for examinations and minor **procedures**, maintained **clinic flow**, and reinforced discharge instructions.
- Reviewed routine test results with supervising clinicians and documented approved patient education and **follow up**.
- Used Word, Excel, **PowerPoint**, and Outlook for education materials, task tracking, **communication**, and presentations.

PROJECTS

Tuberculosis Treatment Continuity Initiative 📅 2025

Improved continuity across tuberculosis visits by aligning symptom review, laboratory follow up, medication services, provider communication, patient education, and discharge planning within a coordinated outpatient workflow.

Community Immunization Coordination Program 📅 2023

Supported age appropriate immunization delivery through CDC schedule review, vaccine documentation, inventory counts, ordering requests, patient teaching, and collaboration with public health staff.

LEADERSHIP & AWARDS

- Recognized by clinical colleagues for dependable tuberculosis follow up, clear patient teaching, and timely provider communication.
- Selected as alternate VFC vaccination coordinator, supporting vaccine storage, inventory, ordering, documentation, and clinic readiness.
- Trusted by outpatient teams to prioritize abnormal laboratory findings and connect patients with appropriate follow up.

EDUCATION

Bachelor's Degree in Nursing

Texas A&M University Corpus Christi 🎓 GPA: 3.5 📅 2021 📍 Corpus Christi, TX

Coursework: Public health nursing, clinical assessment, pharmacology, community health

CERTIFICATIONS

- Registered Nurse, Texas Board of Nursing 📅 2021
- Basic Life Support, American Heart Association 📅 2024
- Texas Driver's License 📅 2021

TECHNICAL SKILLS

- Tuberculosis Care:** Case management, treatment plans, toxicity monitoring
- Clinical Assessment:** Medical history, physical exams, clinical judgment
- Laboratory Testing:** Blood draws, urine testing, laboratory review
- Screening Services:** Vital signs, vision screening, hearing screening
- Immunization Practice:** CDC recommendations, VFC program, vaccine documentation
- Medication Services:** Oral medications, medication dispensing, inventory control
- Electronic Records:** EMR documentation, abnormal values, provider review
- Microsoft Office:** Microsoft Word, Microsoft Excel, Microsoft PowerPoint
- Communication Tools:** Microsoft Outlook, patient education, care coordination
- Emergency Care:** BLS protocols, urgent response, discharge education

- **Public Health Practice:** Evidence based practice, community partnership, health advancement
- **Diagnostic Coordination:** X ray coordination, provider orders, follow up

PROFESSIONAL AFFILIATIONS

- Public health nursing teams, supporting shared care plans, timely referrals, and community centered follow up.
- Tuberculosis clinic partners, coordinating patient education, medication services, laboratory review, and continuity across regional care.
