

STRENGTHS

- Respiratory Support

During extended pediatric shifts, checked ventilator equipment and tracheostomy needs carefully, helping families feel informed and supported.
- Emergency Readiness

Seizure precautions and rescue medication plans stayed visible in daily routines, giving care partners confidence during urgent moments.
- Care Continuity

Transitions across home, appointments, activities, and transportation stayed organized, with practical updates shared after meaningful changes.
- Family Communication

Families received clear explanations about medications, equipment, and warning signs, making routine care easier to follow at home.
- Individualized Nursing

Each assignment followed its care plan closely, yet observations remained personal and responsive to changing pediatric needs.

SUMMARY

Registered Nurse with four years of pediatric and **private duty nursing** experience supporting children with complex medical needs across home, community, and school adjacent settings. Holds an active Illinois RN license, current BLS certification, current **Health Certificate**, and current PPD documentation. Provides calm, individualized care through **tracheostomy support**, ventilator care, **G tube feedings**, seizure monitoring, rescue medication administration, diabetic care, personal care, and focused clinical observation. Maintains continuity across classrooms, activities, appointments, and transportation while following individualized plans of care and provider orders. Recognizes changes in condition, responds according to emergency protocols, documents interventions, and communicates clearly with families, supervisors, providers, and care partners. Brings dependable one on one pediatric support and sound clinical judgment to a full time school nursing assignment.

EXPERIENCE

Pediatric Private Duty Registered Nurse

BrightPath Pediatric Home Care February 2024 - Present Aurora, IL

Provides one on one nursing care for medically complex pediatric clients across home, community, appointments, activities, and transportation settings. Manages respiratory, nutritional, neurologic, diabetic, medication, **personal care**, documentation, and family communication needs under individualized plans of care and provider orders.

- Delivered one on one **pediatric nursing** under individualized plans of care and provider orders.
- Managed tracheostomy support, ventilator checks, suctioning, and respiratory assessments during extended shifts.
- Administered **G tube feedings** and medications, verifying placement, tolerance, schedules, and intake documentation.
- Monitored seizures, maintained **rescue medications**, and followed emergency protocols when clinical thresholds were met.
- Supported **diabetic care** through glucose checks, **medication administration**, nutrition coordination, and symptom recognition.
- Coordinated safe transitions across home, appointments, activities, and transportation while reporting condition changes promptly.

Pediatric Registered Nurse

Fox Valley Children's Nursing October 2022 - January 2024 Geneva, IL

Provided direct pediatric nursing for children with chronic and acute conditions, building independent judgment across respiratory, neurologic, nutritional, personal care, emergency readiness, family education, and **clinical documentation** needs.

- Provided direct **pediatric nursing** for chronic and acute conditions across respiratory and neurologic needs.
- Completed focused assessments and documented respiratory findings for children using airway support equipment.
- Performed enteral feeding, medication administration, skin care, **personal care**, and **infection prevention** procedures.
- Maintained seizure precautions and emergency readiness during daily routines and independent assignments.
- Educated families about care observations, medication schedules, equipment readiness, and clinical escalation signs.
- Maintained accurate nursing notes supporting continuity among caregivers, supervisors, providers, and family members.

MY CAREER

- Pediatric Private Duty
Registered Nurse at BrightPath
Pediatric Home Care (2.7 Years)
- Pediatric Registered Nurse
at Fox Valley Children's Nursing
(1.2 Years)

PROJECTS

Pediatric School Day Continuity 📅 2026

Supported a practical care model for continuity across classroom routines, activities, personal care, and transportation. Clinical priorities included observation, documentation, emergency readiness, family communication, and consistent implementation of individualized plans.

Complex Pediatric Care Coordination 📅 2025

Coordinated respiratory, nutritional, neurologic, diabetic, and personal care needs across community settings. Focus remained on safe transitions, clear reporting, medication safety, and dependable one on one nursing support.

LEADERSHIP & AWARDS

- Recognized by pediatric care teams for dependable one on one support and calm clinical judgment.
- Trusted by families and supervisors for clear communication during complex daily care routines.

EDUCATION

Bachelor's Degree in Nursing

Northern Illinois University 🎓 GPA: 0 📅 2022 📍 DeKalb, IL

Coursework: Pediatric nursing, clinical assessment, pharmacology, community health
