Security Officer

Gateway Logistics Security Group 📅 January 2023 - February 2024 📍 St. Louis, MO

Protected a high volume distribution property through scheduled and randomized patrols, controlled entry, **alarm response**, detailed documentation, and dependable shift communication. Supported docks, yards, parking areas, offices, perimeter fencing, delivery traffic, vendors, and relief officers during daily logistics operations.

- Patrolled docks, yards, **parking areas**, offices, and perimeter fencing across a high volume distribution property.
- Controlled entry for employees, vendors, and delivery drivers by checking credentials and confirming authorization.
- Investigated door alarms, suspicious activity, and safety concerns using calm observation and escalation practices.
- Maintained daily activity records and **incident documentation** with relevant people, locations, times, observations, and notifications.
- Briefed relief officers on access exceptions, open incidents, expected contractors, and areas needing added patrol attention.
- Assisted visitors and drivers courteously while maintaining security boundaries and directing approved check in activity.

STRENGTHS

- 🏢 **Industrial Awareness**
A routine patrol included production areas and utility corridors, helping surface unusual conditions before they affected daily operations.
- 🔔 **Calm Incident Response**
Alarm and spill notifications received steady attention, with immediate area checks and clear contact with designated responders.
- 🔒 **Access Control**
Credential checks kept employee, visitor, and contractor entry orderly. Clear explanations helped preserve a professional site experience.
- ♥️ **Accurate Reporting**
Detailed logs captured times, locations, actions, and open conditions, giving relief officers a useful starting point each shift.
- 👥 **Customer Service**
Drivers, vendors, tenants, and visitors received courteous direction without weakening established security boundaries or post instructions.
