STRENGTHS

- ♥ **Calm incident response**
During alarms and entry disputes, paused before acting, followed escalation steps, and kept conversations respectful.
- ✓ **Credential accuracy**
At busy gates, checked names, authorizations, and visitor details carefully, becoming a reliable point for entry decisions.
- 👤 **Professional service**
Clear directions helped visitors and contractors follow site rules without slowing authorized facility activity.
- 👁 **Patrol awareness**
Routine rounds exposed unsecured points and maintenance concerns early, giving supervisors useful follow up information.
- 🕒 **Reliable coverage**
Accepted fixed and additional shifts across varied sites, building confidence through steady attendance and adaptable post work.

SUMMARY

Security officer with three years of experience protecting industrial and commercial facilities through access control, **credential verification**, **visitor registration**, patrols, alarm response, incident documentation, and professional customer service. Supports employees, visitors, contractors, vendors, and delivery personnel at busy entry points while applying site procedures and escalation requirements. Operates electronic access control and **visitor management systems**, issues and recovers temporary badges, maintains accurate logs, and resolves authorization discrepancies with calm judgment. Conducts scheduled and random patrols across entrances, exits, parking areas, loading approaches, and facility perimeters. Holds **Texas Level II Non Commissioned Security Officer Registration** and current CPR, AED, and First Aid training. Dependable across fixed schedules and additional coverage, with a clear focus on protecting people, property, and authorized facility operations.

EXPERIENCE

Security Officer, Access Control

Trinity Gate Security 📅 May 2025 - Present 📍 Plano, Texas

Supports **entry integrity** at a manufacturing campus, managing access systems, visitor processing, patrol activity, incident response, and shift records. Works with site contacts and supervisors to protect restricted areas while keeping authorized facility activity moving.

- Verified employee, contractor, visitor, and delivery credentials before granting manufacturing campus access.
- Operated **access control** and **visitor management systems**, routing unresolved authorization issues to site contacts.
- Issued temporary badges, reconciled returns, and maintained logs for accountability and site audits.
- Patrolled entrances, **parking areas**, loading approaches, and perimeter points during scheduled rounds.
- Responded to access alarms and disputes through site **escalation procedures** and calm **customer service**.
- Prepared daily reports covering denied entries, alarms, patrol observations, and credential discrepancies.

Security Officer

Metroplex Site Protection 📅 October 2023 - April 2025 📍 Irving, Texas

Provided front gate protection across commercial and light industrial properties, combining credential screening, visitor service, patrol coverage, **alarm response**, and accurate reporting. Adapted across client sites while preserving access restrictions, clear communication, and dependable shift coverage.

- Screened **employees**, vendors, visitors, and delivery drivers against site **authorization** requirements.
- Verified identification and visitor details before issuing credentials and updating shift logs.
- Patrolled **entrances**, parking areas, service corridors, and exterior boundaries across varied shifts.
- Responded to **alarms** and after hours access requests, documenting actions in chronological reports.
- Explained procedures clearly to guests and **contractors** while enforcing access restrictions professionally.
- Accepted weekend and evening coverage across sites with different post orders and access systems.
