STRENGTHS

- ♥️ **Calm Incident Response**
During alarms and unusual activity, assessed conditions calmly and communicated clear next steps through established channels.
- 👁️ **Visible Site Protection**
Regular and unpredictable patrols kept production, loading, parking, and perimeter areas under consistent observation.
- 👥 **Courteous Service**
Employees, visitors, drivers, and vendors received helpful direction without losing sight of access expectations.
- 📄 **Clear Documentation**
Shift records captured incidents, open concerns, and patrol details so supervisors could act with confidence.
- 👉 **Practical Judgment**
When conditions changed, focused on safety, procedure, and timely escalation rather than creating confusion.

SUMMARY

Security Officer with four years protecting **automotive manufacturing**, distribution, and commercial facilities through visible patrols, perimeter monitoring, access awareness, incident response, and professional customer service. Protects active production, shipping, parking, loading, and visitor areas during afternoon and evening operations. Applies site procedures consistently, observes changing conditions, and communicates concerns clearly by radio and written shift records. Responds to alarms, unusual activity, employee concerns, and operational disruptions with calm judgment and practical problem solving. Supports orderly interactions with employees, contractors, drivers, visitors, and vendors while preserving site security expectations. Holds an **Alabama Security Officer License**, valid Alabama Driver's License, and **high school diploma**. Ready to contribute dependable **site protection** and courteous service in a manufacturing environment.

EXPERIENCE

Security Officer, Automotive Site Protection

Tennessee Valley Components 📅 January 2024 to Present 📍 Decatur, AL

Protects a multi building automotive parts operation across production, shipping, parking, entrance, and perimeter areas. Supports second shift activity through visible coverage, randomized patrols, incident response, professional communication, and clear documentation for supervisors and site management.

- Protected production and shipping areas through interior and exterior patrols during second shift operations.
- Addressed access concerns with visible coverage and site procedures across active **manufacturing areas**.
- Responded to alarms and unusual activity using calm assessment, **radio communication**, and timely notification.
- Assisted **employees**, contractors, drivers, and **visitors** courteously at entrances and common areas.
- Completed randomized patrols across loading zones, **fenced boundaries**, and lower traffic areas without disrupting operations.
- Documented **incidents** and observations in clear shift records for supervisor follow up and handoffs.

Security Officer, Distribution Facility Protection

Riverbend Logistics Center 📅 October 2022 to December 2023 📍 Athens, AL

Monitored a regional distribution facility with frequent truck movement, employee traffic, and **after hours deliveries**. Maintained orderly access, perimeter awareness, emergency readiness, courteous visitor service, and concise activity reporting across changing site conditions.

- Monitored truck traffic and employee movement across docks, parking areas, and property boundaries.
- Conducted foot and **vehicle patrols** around exterior doors using established post procedures.
- Managed visitor and vendor interactions courteously while confirming access and directing facility contacts.
- Applied **emergency procedures** during alarms and operational disruptions with clear supervisor communication.
- Identified unsecured doors, **lighting concerns**, and unusual conditions during **scheduled patrols**.
- Prepared concise **activity reports** covering incidents, open concerns, patrol completion, and site conditions.
