STRENGTHS

-  **Executive accountability**
Owns sensitive incidents from first report through verified recovery, keeping leaders informed and specialists aligned.
-  **Mac expertise**
Jamf administration and hands on troubleshooting kept executive Macs dependable, even when problems surfaced before meetings.
-  **Calm communication**
Turns complex findings into concise updates. Senior stakeholders gained confidence during urgent, high visibility incidents.
-  **Service improvement**
Recurring issues became preventive checks and knowledge articles, giving peers clearer paths through familiar problems.
-  **Discreet support**
Protected confidential leadership and research information while resolving technology needs with practical judgment and care.

- Vendor Coordination
- Service Improvement

SUMMARY

Senior Desktop Technician with nine years of enterprise support experience across academic, healthcare, research, and university settings. Provides discreet, high touch service for executives, faculty leaders, researchers, and administrative teams, with deep macOS expertise and strong Windows capability. Owns high visibility incidents from intake through verified resolution, coordinating networking, systems, security, audiovisual, application, and vendor resources without losing accountability. Uses Jamf for Mac configuration, policy management, software deployment, security validation, and lifecycle support. Supports **Microsoft 365, mobile devices, collaboration tools**, conference rooms, executive offices, **leadership briefings**, and urgent events. Communicates concise technical updates to senior stakeholders, develops durable fixes for recurring problems, and improves knowledge documentation. Brings calm judgment and dependable service to sensitive technology environments.

EXPERIENCE

Senior Desktop Support Specialist, Executive Services

Beacon Hill Health Sciences Center 📅 March 2024 - Present 📍 Boston, MA

- Leads executive technology support across clinical, research, and academic leadership, owning sensitive incidents, endpoint operations, meeting technology, and service improvements.
- Supported 28 executives and administrative partners across clinical, research, and academic leadership environments.
 - Owned high priority incidents through resolution, coordinating device, identity, network, **security**, and application specialists.
 - Managed executive Macs through **Jamf** policies, configuration profiles, software changes, and performance troubleshooting.
 - Supported Microsoft 365, **Windows**, mobile devices, collaboration tools, **conference rooms**, and leadership events.
 - Converted recurring support patterns into knowledge articles, preventive checks, and team service improvements.

Desktop Support Engineer

Charles River Research University 📅 June 2021 - February 2024 📍 Cambridge, MA

- Supported faculty, principal investigators, administrators, and research teams across mixed Mac and Windows environments, with ownership of endpoint, collaboration, conferencing, and service documentation improvements.
- Supported faculty, principal investigators, administrators, and research staff across laboratories and academic offices.
 - Administered Jamf policies and configurations for **macOS** enrollment, deployment, authentication, encryption, and performance.
 - Escalated **Microsoft 365**, collaboration, **endpoint**, and conferencing incidents through infrastructure and security partnerships.
 - Delivered on site and remote support around academic deadlines, presentations, leadership meetings, and research events.
 - Validated conference room **systems** with **audiovisual** staff and vendors before major meetings and live presentations.

Desktop Support Technician

Baystate Clinical Education Network 📅 August 2019 - May 2021 📍 Waltham, MA

- Delivered endpoint and meeting technology support for clinical educators, administrators, and department leaders, protecting continuity across teaching, presentation, and executive activities.
- Delivered desktop support for clinical educators, administrators, and leaders using **Mac**, **Windows**, and Microsoft 365.
 - Diagnosed endpoint, account, application, peripheral, and connectivity issues through structured triage and evidence.

LANGUAGES

MY CAREER

- Senior Desktop Support Specialist, Executive Services at Beacon Hill Health Sciences Center (2.6 Years)
- Desktop Support Engineer at Charles River Research University (2.7 Years)
- Desktop Support Technician at Baystate Clinical Education Network (1.8 Years)
- IT Support Specialist at Merrimack University Services (2 Years)

- Refreshed Mac and Windows devices while preserving settings and validating application access before transitions.
- Prepared virtual and in room teaching sessions with checks for audio, displays, conferencing, and collaboration.
- Expanded documentation for recurring Mac, Windows, **Microsoft 365**, and conferencing problems across support workflows.

IT Support Specialist

Merrimack University Services 📅 July 2017 - July 2019 📍 Lowell, MA

Provided campus technology support for faculty and administrative users, building foundational macOS expertise while improving deployment readiness, event coverage, and knowledge resources.

- Supported faculty and administrative users across Mac, **Windows**, productivity applications, printers, and **mobile devices**.
- Troubleshoot profiles, software, network access, peripherals, and operating system issues in mixed environments.
- Resolved service desk escalations through interviews, diagnostics, procedures, and infrastructure coordination.
- Prepared faculty and staff computers with required software, access, security settings, and peripherals.
- Added recurring fixes and setup procedures to knowledge resources for consistent technician support.

PROJECTS

Executive Endpoint Continuity 📅 2025

Recurring Mac performance and configuration issues became a service opportunity. Jamf checks, preventive guidance, and knowledge documentation helped executive support resolve patterns with less disruption.

Leadership Meeting Technology Readiness 📅 2023

High profile meetings left little room for technical surprises. Pre event conference room validation with audiovisual partners improved readiness for presentations and governance sessions.

LEADERSHIP & AWARDS

- Recognized by executive services leadership for dependable ownership of sensitive, high visibility technology incidents.
- Selected as a trusted escalation resource for Mac, Microsoft 365, conferencing, and executive support issues.
- Commended by support peers for clear documentation and practical fixes that improved recurring service workflows.

EDUCATION

Bachelor's Degree in Information Technology

University of Massachusetts Lowell 🎓 GPA: 3.5 📅 2017 📍 Lowell, MA

Coursework: macOS support, Windows administration, networking fundamentals, information security
