STRENGTHS

- 🎯 **Portfolio judgment**
Paused low value work after reviewing capacity, risk, and customer impact. Leaders gained a clearer view of where focus mattered most.
- 💡 **Executive clarity**
Turned complex scenarios into concise PowerPoint choices. Senior stakeholders had a practical path forward, even with incomplete information.
- 👥 **Cross functional trust**
Connected Commercial, Supply Chain, Finance, Technology, and Human Resources. Teams began bringing difficult decisions forward earlier.
- ♥️ **Change adoption**
Used readiness checkpoints and audience specific communication plans. Process changes landed more smoothly across regional teams.
- ⚙️ **Operational focus**
Followed customer support friction into practical improvements. Partners saw stronger accountability from issue discovery through closeout.

SUMMARY

Senior **strategic projects** and **portfolio** leader with 11 years of experience translating enterprise priorities into executable programs across **medical technology**, customer operations, supply chain, and business transformation. Leads complex cross functional portfolios in matrixed environments, combining **Chief of Staff** discipline with program governance, executive decision support, financial oversight, and change leadership. Experienced in portfolio intake and prioritization, roadmaps, risk and decision governance, business cases, budgets, benefits tracking, KPI reporting, and value realization across United States, Canadian, and Latin American operations. Trusted partner to senior leaders, simplifying ambiguous issues through scenario planning, structured recommendations, and concise executive communications. Connects customer priorities, resources, financial implications, and execution detail to improve decision quality, accountability, customer experience, and operational performance.

EXPERIENCE

Senior Manager, Strategic Portfolio

Crestline Surgical Technologies 📅 March 2022 - Present 📍 Morristown, NJ

Directs an integrated portfolio of customer operations and transformation initiatives across United States, Canada, and Latin America. Partners with regional leaders as a Chief of Staff, guiding governance, executive decisions, financial oversight, change adoption, and value realization.

- Aligned portfolio roadmaps, **dependencies**, and resources with executive priorities across three regional markets.
- Established **intake** criteria that improved decisions on initiative **approval**, pausing, rescoping, combination, and closure.
- Shaped leadership agendas and decision forums, strengthening follow through across **customer solutions** stakeholders.
- Connected program budgets, benefits, risks, and KPIs through dashboards used in executive reviews.
- Escalated delivery threats with accountable owners, mitigation plans, and clear options for senior leaders.
- Guided communication and readiness plans for **digital transformation** and **process harmonization** initiatives.

Program Manager, Customer Operations Transformation

Asteron MedTech 📅 July 2019 - February 2022 📍 Parsippany, NJ

Led multi workstream customer operations programs spanning order support, service processes, technology releases, **supply chain** interfaces, and regional adoption. Converted operational needs into roadmaps, governance routines, financial views, executive choices, and sustained process change.

- Led customer operations programs from scope definition through implementation, **benefits** review, and closeout.
- Mapped **technology**, training, readiness, and regional dependencies before customer facing delivery was affected.
- Prepared PowerPoint and **Excel** scenarios clarifying timing, resource, customer, and financial tradeoffs.
- Reconciled program forecasts with **Finance** actuals, documenting corrective actions when assumptions changed.
- Facilitated leadership reviews with explicit decisions, owners, and due dates across matrixed teams.
- Built readiness checkpoints and **communications** supporting standardized service adoption across country operations.

Senior Project Manager, Business Operations

BluePeak Health Devices 📅 June 2017 - June 2019 📍 Bridgewater, NJ

MY CAREER

● Senior Manager, Strategic Portfolio at Crestline Surgical Technologies (4.6 Years)

● Program Manager, Customer Operations Transformation at Asteron MedTech (2.6 Years)

● Senior Project Manager, Business Operations at BluePeak Health Devices (2 Years)

● Project Manager, Customer Solutions at HarborPoint Medical Products (1.9 Years)

Managed **business operations** projects linking customer service, distribution, supply planning, commercial teams, and technology in a regulated medical device environment. Supported planning, **business cases**, readiness, implementation, executive reporting, and operational continuity.

- Linked customer service, distribution, supply planning, and technology workstreams through shared delivery plans.
- Created charters, schedules, **action logs**, **risk registers**, and decision records for sponsor visibility.
- Analyzed customer support trends in Excel, turning process friction into prioritized improvement initiatives.
- Coordinated implementation readiness, training needs, cutover decisions, and post launch follow up.
- Consolidated costs, resources, benefits, and risks for annual planning and business case development.
- Produced **executive updates** connecting delivery status with customer impact, continuity, and financial considerations.

Project Manager, Customer Solutions

HarborPoint Medical Products 📅 June 2015 - May 2017 📍 Newark, NJ

Managed customer solutions projects involving service request workflows, order support, supply chain handoffs, and issue resolution for hospital and clinical customers. Facilitated requirements, option analysis, implementation planning, communications, training, and adoption follow up.

- Managed service workflow projects for hospital and clinical customer support operations.
- Mapped customer and **supply chain** handoffs, exposing ownership gaps and escalation points.
- Maintained schedules, issue logs, decisions, and status reports for concurrent initiatives.
- Facilitated workshops that clarified requirements, evaluated options, and confirmed implementation actions.
- Built Excel analyses and PowerPoint presentations summarizing service findings and operational benefits.
- Coordinated training, user communications, and adoption follow up during process changes.

PROJECTS

Americas Portfolio Governance Transformation 📅 2024

Created a disciplined portfolio model connecting intake, prioritization, roadmaps, dependencies, risk, financial impact, executive decisions, and value realization across regional operations.

Customer Operations Process Harmonization 📅 2021

Standardized service processes across country teams through readiness planning, stakeholder workshops, communication plans, training coordination, and adoption checkpoints.

Integrated Business Performance Reporting 📅 2019

Connected budgets, actuals, benefits, risks, milestones, and customer outcomes in executive reporting that supported faster decisions and clearer accountability.
