STRENGTHS

- 🚚 **Fleet readiness**
Kept mixed vehicle and construction fleets moving by pairing scheduled service with practical field response.
- ⚙️ **Tire service**
Handled tire mounting, balancing, repair, and replacement, with careful checks before equipment returned.
- 🔧 **Troubleshooting**
Tracked minor faults through batteries, belts, hoses, lights, and brakes until service scope was clear.
- ♥️ **Safety focus**
Used safe lifting, fuel handling, inspection, and shop practices; operators could rely on consistent work.
- 📝 **Service records**
Clear maintenance notes helped other technicians see completed work, open defects, and next steps.

SUMMARY

Service Technician with four years of experience maintaining automotive and construction equipment in fleet and equipment service environments. Performs preventive maintenance, oil and lubricant service, **tire mounting** and repair, minor mechanical repairs, **equipment inspections**, and safe **fuel delivery** for mixed vehicle fleets. Holds a valid Kansas driver's license and Class A Commercial Driver's License with **tank endorsement**. Supports trucks, utility vehicles, trailers, passenger vehicles, loaders, and light construction equipment through scheduled service and responsive field support. Coordinates with operators and maintenance staff, documents defects clearly, and prioritizes work that returns equipment to safe operating condition. Practical troubleshooting, consistent shop safety, and accurate service records support reliable fleet readiness.

EXPERIENCE

Service Technician

Heartland Fleet Care 📅 June 2024 to Present 📍 Wichita, Kansas

Supports a mixed fleet of utility trucks, passenger vehicles, trailers, and light construction equipment. Owns scheduled service, tire work, fluid care, minor repairs, field fuel delivery, inspections, documentation, and daily coordination with operators and fleet personnel.

- Serviced utility trucks and loaders through scheduled maintenance, restoring units for dependable daily operations.
- Mounted and balanced fleet tires, checking tread, casings, valves, and inflation before release.
- Completed oil changes, lubrication, fluid checks, and filter replacements using fleet service schedules.
- Diagnosed batteries, belts, hoses, lighting, and brakes, completing minor repairs within assigned scope.
- Delivered fuel through service vehicles, applying **Class A CDL** and **tank endorsement** requirements safely.
- Recorded defects and completed work, giving operators clear equipment status between shifts.

Junior Service Technician

Sunflower Equipment Service 📅 October 2022 to May 2024 📍 Hutchinson, Kansas

Supported shop and field service for pickups, vans, trailers, compact loaders, and construction equipment. Built practical experience in inspections, lubrication, tire work, fluid service, minor repairs, field preparation, parts tracking, and maintenance records.

- Inspected pickups, vans, trailers, and loaders, identifying service needs before field deployment.
- Removed and mounted tires with shop equipment and safe lifting practices for inspection ready assemblies.
- Performed engine oil, filter, coolant, and lubricant services while identifying leaks and worn components.
- Resolved routine issues involving lamps, batteries, wipers, hoses, and fasteners within assigned scope.
- Prepared service trucks, fuel supplies, tools, and replacement parts for remote equipment calls.
- Maintained service records and parts notes, supporting accurate follow up planning by senior technicians.

LEADERSHIP & AWARDS

- Recognized by fleet leadership for dependable field service response and clear maintenance records.
- Trusted with fuel delivery assignments requiring Class A CDL and tank endorsement compliance.

EDUCATION

Diploma in Automotive Technology

Wichita Technical Institute 🎓 GPA: 3.5 📅 2022 📍 Wichita, Kansas
