STRENGTHS

- 💡 **Creativity**
Regularly generated innovative ideas, leading to unique software features and winning projects.
- 🔍 **Analytical Skills**
Consistently able to dissect user requirements carefully, resulting in more efficient products.
- 🛡️ **Resilience**
Overcame challenges during tight deadlines, showcasing unwavering commitment to project completion.
- 👥 **Team Collaboration**
Built strong relationships among team members, improving synergy in product development phases.
- 🔄 **Adaptability**
Was open to learning and growing through new challenges and technologies within various projects.

SKILLS

- Java Python Web Development
- Debugging Software Testing
- User Experience
- Database Management
- Agile Methodologies
- Cloud Computing
- Cross-Platform Development
- API Development Version Control
- User Requirements Analysis
- Application Customization
- Collaboration Tools

SUMMARY

Detail-oriented software developer passionate about leveraging Java and Python skills to create impactful software solutions. Strong background in designing, implementing, and optimizing applications based on user needs anchors work quality and efficacy. Experienced in collaborating with cross-functional teams to ensure projects meet client requirements while adhering to deadlines. Always eager to enhance operational efficiency by analyzing user input to develop customized applications and improve business processes. Excited about the prospect of joining Innovative Tech Solutions to contribute skills toward innovative projects and foster long-term success.

EXPERIENCE

Software Developer

Tech Innovations Inc. 📅 January 2022 - August 2025 📍 Chicago, IL

Acted as a core member of the software development team, focusing on both client-facing applications and utility programs that needed enhancement. Championed collaboration to innovate solutions that address complex user requirements, prioritizing clarity and function on diverse projects.

- Developed and optimized web applications using Java and Python, ensuring usability.
- Analyzed user requirements meticulously to deliver customized software solutions.
- Collaborated actively with multi-disciplinary teams to align on project goals.
- Designed application features aimed at bolster operational effectiveness and user satisfaction.

Junior Software Developer

Innovative Apps Co. 📅 June 2021 - December 2021 📍 Chicago, IL

Supported senior developers in building scalable software applications. Focused on executing enhancements required by users through both front-end and back-end adjustments. This role emphasized teamwork and adaptability in completing high-stakes projects.

- Assisted in debugging applications efficiently, reducing downtime and increasing productivity.
- Participated in code reviews to continually ensure coding standards were met.
- Engaged in research for the latest tools, aiding customization capability for client requests.
- Facilitated clear communication between teams, contributing to successful project execution.

Intern Software Developer

Future Technologies LLC 📅 June 2020 - May 2021 📍 Remote

Focused on programming and enhancing existing applications to better fit user necessities. Collaborated closely with mentors and peers to translate initial ideas into functional digital tools.

- Gathered user feedback effectively, helping shape iterative improvements to applications.
- Integrated new functionalities to streamline user tasks and boost satisfaction.
- Learned new methodologies in software development that enhanced ability to meet diverse needs.
- Contributed towards documentation efforts, clarifying technical aspects for broader audiences.

LEADERSHIP & AWARDS

- Recipient of Excellence Award for Best Project at University focusing on User-Centric Design.
- Hackathon Winner for Developing an Innovative App benefiting local businesses.

EDUCATION

Master's Degree in Computer Science

University of Illinois at Chicago 🎓 GPA: 3.8 📅 2025 📍 Chicago, IL

LANGUAGES

English	Native
Spanish	Proficient

MY CAREER

- Software Developer at Tech Innovations Inc. (3.6 Years)
- Junior Software Developer at Innovative Apps Co. (6 Months)
- Intern Software Developer at Future Technologies LLC (11 Months)

Coursework: Algorithms, Database Systems, Software Engineering, Web Development

Bachelor's Degree in Computer Science

University of Illinois at Chicago 🎓 GPA: 3.7 📅 2023 📍 Chicago, IL

Coursework: Computer Systems, Network Security, Mobile Application Development, Data Structures

CERTIFICATIONS

- Certified Java Developer 📅 2025
- Python Programming Certification 📅 2024

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++
- **Development Frameworks:** Spring, Django, Flask
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Version Control Systems:** Git, GitHub, Subversion
- **Methodologies:** Agile, Scrum, Waterfall
- **Design Tools:** UML, Visio, Figma
- **IDE:** Eclipse, IntelliJ, PyCharm
- **Testing Tools:** JUnit, Selenium, Postman
- **Deployment:** Docker, Kubernetes, AWS
- **Communication Tools:** Slack, Zoom, Microsoft Teams

PROFESSIONAL AFFILIATIONS

- Member of ACM (Association for Computing Machinery), contributing insight and networking.
- Active Volunteer at Code.org, promoting computer science education across communities.
