STRENGTHS

- ♥ **Empathy**
Insisting on empathy, always reached out to families during difficult times, gaining their confidence and trust.
- 👥 **Team Collaboration**
Established close partnerships within healthcare teams to coordinate critical care, becoming a go-to resource on neonatal issues.
- 🛡 **Patient Advocacy**
Advocated consistently for patients' needs, ensuring every voice was heard during care planning discussions.
- ↕ **Adaptability**
Progressive adaptability encouraged ability to manage fast-paced environments, mentoring interns in achieving smooth operations.
- 📚 **Commitment to Learning**
Enrollment in a BSN program reflects ongoing commitment to professional growth and improving nursing practice.

- **Regulatory Standards:** HIPAA Compliance, Joint Commission Guidelines, State Regulations

EXPERIENCE

NICU Nursing Intern

University Research Lab 📅 June 2025 - Present 📍 Chicago, IL

As an NICU Nursing Intern, responsible for delivering high-quality care for critically ill newborns in a busy research setting. That experience includes direct participation in monitoring patients, assisting with treatments, and supporting family interactions. Collaborated with diverse healthcare teams to ensure comprehensive care focused on individual needs.

- Assisted healthcare teams in managing vital signs for critically ill neonates, enabling timely interventions that improved outcomes.
- Engaged families in education and emotional support, fostering trust and providing comfort during challenging situations.
- Contributed to thorough patient documentation practices and actively engaged in interdisciplinary rounds discussing individualized care plans.
- Supported the administration of medication as per pediatrician directives, ensuring adherence to care protocols that enhance patient safety.
- Participated in quality improvement initiatives, helping reduce hospital-acquired infections and optimizing care processes.
- Facilitated communication among nursing staff, physicians, and families, streamlining care efforts to achieve cohesive treatment goals.

MY CAREER

● NICU Nursing Intern at University Research Lab (1 Years)

● Student Nurse at Academic Research (8 Months)

Served as a Student Nurse involved in a capstone project aimed at refining neonatal care protocols, navigating real-world challenges while presenting research findings. Developed educational materials to empower nursing staff and advocates for evidence-based practices.

- Conducted an extensive literature review focusing on neonatal pain management strategies, offering insights for clinical practice changes.
- Created innovative training resources for staff on implementation of new care strategies for enhanced patient outcomes.
- Worked closely with faculty to structure workshops geared towards skill enhancement in neonatal resuscitation techniques, increasing team preparedness.
- Collaborated with academic peers to develop and present research findings at a respected annual nursing conference, showcasing commitment to quality research.
- Built hands-on experience in patient assessments, contributing to effective care planning under supervisory guidance from licensed nurses.
- Provided supportive engagement with patients' families, promoting transparency especially during health crises.

LEADERSHIP & AWARDS

- Dean's List, Fall 2024, Spring 2025
- Nursing Student Scholarship, Chicago Community College, 2024

CERTIFICATIONS

- BLS Certification 📅 2025

PROFESSIONAL AFFILIATIONS

- Member, Nursing Student Association, 2024 – Present
