STRENGTHS

Structured Troubleshooting

When a clinical device stopped communicating, followed documented checks in sequence and gave advanced support reproducible findings.

Customer Communication

Explained setup steps differently for clinicians, biomedical technicians, and IT contacts, helping each audience move forward confidently.

Case Ownership

Kept phone and email cases current from intake through closure. Clear notes became a trusted handoff point for peers.

Healthcare Awareness

Handled support information with HIPAA aware care and kept operational, environmental, health, and safety procedures in view.

Escalation Quality

Collected symptoms, system details, and prior steps before routing difficult issues, reducing avoidable back and forth for advanced teams.

SUMMARY

Technical support specialist with three years of experience resolving hardware, software, Windows, connectivity, and connected device issues in customer facing service environments. Provides Level 1 help desk support for healthcare users, clinicians, **biomedical technicians**, and **IT teams** through phone and email channels. Manages cases from initial report through resolution, documenting symptoms, troubleshooting steps, customer updates, escalation details, and closure evidence in CRM and ticketing systems. Uses **technical documentation**, knowledge articles, and **standard operating procedures** to isolate faults and guide setup or configuration. Coordinates RMA activity for repair and replacement needs. Applies HIPAA aware information handling, GDPR awareness, and environmental, health, and safety procedures while supporting service continuity and rotating after hours coverage. Ready to contribute disciplined case ownership, clear communication, and practical troubleshooting in a remote technical services role.

EXPERIENCE

Technical Support Specialist

Lakeshore Clinical Technology Services 📅 April 2025 - Present 📍 Milwaukee, Wisconsin

Supports connected clinical devices and companion software for healthcare users, biomedical technicians, and IT contacts. Owns Level 1 cases across phone and email channels, applies documented procedures, coordinates RMA activity, and protects service continuity during scheduled after hours coverage.

- Resolved Windows, application, network, setup, and device communication issues for healthcare users.
- Documented **phone** and email cases in CRM and **ticketing systems** with clear resolution evidence.
- Applied **knowledge articles** and standard procedures before escalating complex **connectivity** and software faults.
- Coordinated RMA requests by verifying repair details and replacement status for depot teams.
- Guided **clinicians**, biomedical technicians, and IT contacts through **configuration** and operational checks.
- Protected customer information through HIPAA aware handling and scheduled after hours support.

Help Desk Technician

Midwest Service Desk Solutions 📅 October 2023 - March 2025 📍 Madison, Wisconsin

Provided customer facing **help desk** support for Windows workstations, **Microsoft Office** applications, peripherals, account access, and basic network connectivity. Managed incident records, guided users through setup, and prepared reproducible findings for desktop and infrastructure escalation.

- Supported business users through phone and **email** for Windows workstations and peripherals.
- Diagnosed incidents using troubleshooting sequences, system information, and knowledge base articles.
- Recorded incidents with categorization, troubleshooting history, communications, and closure notes.
- Guided users through **software** setup, application configuration, and device connection steps.
- Used Outlook, **Excel**, and **Word** for communications, tracking, and operational documentation.
- Collected reproducible details and routed unresolved problems to advanced support teams.

PROJECTS

Connected Device Support Workflow 📅 2025

A recurring device issue became a useful process lesson. Mapped intake, troubleshooting, documentation, escalation, and RMA handoffs for connected clinical equipment, giving support teams clearer case evidence and more consistent service coordination.

MY CAREER

● Technical Support Specialist at Lakeshore Clinical Technology Services (1.4 Years)

● Help Desk Technician at Midwest Service Desk Solutions (1.4 Years)

Service Desk Knowledge Base Review 📅 2024

Small documentation gaps slowed otherwise simple calls. Reviewed troubleshooting references for Windows, applications, peripherals, and network connectivity, helping users receive clearer setup guidance and helping advanced teams receive better escalation details.
