STRENGTHS

- ♥ **Field safety**
Pre use checks became a steady habit during tool practice, helping keep simulated crews and work areas orderly.
- 🔍 **Asset inspection**
Roadway inspections focused on small warning signs, and instructors valued clear notes that supported practical repair decisions.
- 🚧 **Traffic control**
Cone and sign placement was reviewed from a driver's view, leading to safer guidance around active training zones.
- 👥 **Public service**
Community questions were handled courteously during volunteer work, with concerns routed clearly when another person had better answers.
- 📅 **Dependable attendance**
Perfect attendance reflected consistent follow through during training, even when practical work required long outdoor sessions.

SKILLS

- Street Maintenance
- Drainage Maintenance
- Stormwater Systems
- Roadway Markings Street Signs
- Traffic Control
- Line Locate Awareness
- General Construction Hand Tools

SUMMARY

Early career streets maintenance candidate with supervised field training in roadway upkeep, drainage systems, traffic control, construction safety, and equipment operation. High school graduate with a valid Texas driver's license and practical exposure to hand tools, power tools, pavement repair, **stormwater collection systems**, street signs, roadway markings, line locate awareness, and work zone setup. Training included inspection of roadway assets, documentation of maintenance needs, supervised repairs, safe lifting, and courteous public communication. Comfortable working outdoors in changing weather, walking long distances, kneeling, crouching, stooping, squatting, **lifting up to 50 pounds**, extended hours, and **emergency response** conditions. Prepared to obtain a **Class A CDL** within one year of hire and contribute dependable support to municipal streets operations.

EDUCATION

High School Diploma

Arlington High School 🎓 GPA: 4.0 📅 2025 📍 Arlington, TX

Coursework: General construction, roadway maintenance, safety procedures, equipment operation

TECHNICAL SKILLS

- **Roadway Maintenance:** Pothole patching, alley upkeep, pavement repair
- **Drainage Systems:** Stormwater collection, drainage cleaning, erosion inspection
- **Traffic Control:** Cones, flags, warning signs
- **Roadway Assets:** Street signs, guardrails, traffic signals
- **Construction Tools:** Hand tools, power tools, measuring tools
- **Equipment Operations:** Maintenance equipment, construction equipment, specialty vehicles
- **Safety Standards:** OSHA 10, pre use checks, safe lifting
- **Utility Awareness:** Line locates, marked utilities, site diagrams
- **Field Documentation:** Maintenance notes, field reports, work orders
- **Vehicle Operations:** Motor vehicles, trucks, driver's license
- **Emergency Response:** Trouble calls, weather response, hazard escalation
- **Work Environment:** Outdoor work, extended hours, on call availability

EXPERIENCE

Streets Maintenance Training Technician, Field Simulations

Student Lab 📅 June 2026 to September 2026 📍 Arlington, TX

Completed supervised municipal maintenance simulations covering streets, alleys, signs, markings, drainage, traffic control, tools, equipment, and public safety. Supported realistic work order scenarios while learning safe procedures, inspection methods, repair planning, and field documentation.

MY CAREER

0
MONTHS

- Inspected mock roadway segments for damaged signs, **guardrails**, markings, and surface defects, recording prioritized maintenance notes.
- Practiced **traffic control** with cones, signs, and flags around simulated maintenance zones for safer vehicle guidance.
- Operated **hand tools** and **power tools** under supervision, completing pre use checks, cleaning, and storage documentation.
- Completed supervised **pothole patching**, sign maintenance, pavement marking inspection, and basic alley upkeep exercises.
- Applied measurements and material estimates during small repairs, documenting quantities and selected tools for review.
- Demonstrated safe lifting, walking, kneeling, crouching, stooping, and **outdoor work** during practical assessments.

Stormwater Maintenance Trainee, Drainage Simulation

Course Project 📅 February 2026 to May 2026 📍 Arlington, TX

Supported a supervised stormwater and drainage maintenance simulation focused on collection assets, line locate awareness, weather related roadway issues, work zone safety, field reporting, and appropriate escalation of hazards.

- Evaluated simulated drainage assets for debris, blockage, erosion, and visible damage, preparing maintenance recommendations.
- Performed supervised cleaning and basic drainage maintenance while following tool safety and work zone procedures.
- Used site diagrams and marked utility information before mock digging, building practical line locate awareness.
- Documented drainage observations, maintenance steps, and unresolved conditions in concise field reports for staff handoff.
- Prioritized public safety and **traffic control** during a weather related roadway drainage response scenario.
- Presented a maintenance plan explaining hazards, equipment selection, task sequence, and safe site restoration.

PROJECTS

Municipal Roadway Asset Inspection 📅 2026

Created a supervised inspection exercise for signs, guardrails, pavement markings, alleys, and roadway defects. Recorded findings, repair priorities, equipment needs, and safe work zone requirements.

Stormwater Collection Response Plan 📅 2026

Developed a classroom response plan for drainage blockage and erosion. Connected line locate awareness, traffic control, public safety, documentation, and escalation procedures.

LEADERSHIP & AWARDS

- Career and Technical Education Outstanding Student Recognition, 2025
- Perfect Attendance Award, 2025
- Peer Safety Demonstration Volunteer, Career and Technical Education Program, 2026

CERTIFICATIONS

- OSHA 10 Hour Construction Safety 📅 2026
- Valid Texas Driver's License 📅 2026

PROFESSIONAL AFFILIATIONS

- Community Cleanup Volunteer, Arlington, TX, 2025
- Career and Technical Education Program, Arlington, TX, 2026
