STRENGTHS

- Commercial judgment

Translated difficult liability and privacy questions into practical deal options, and sales leaders gained confidence in recommendations.
- Privacy counseling

Negotiated DPA positions across GDPR and state laws. Teams often sought clear guidance when customer requirements became difficult.
- Contract systems

Built templates and playbooks after seeing recurring issues slow negotiations, giving teams cleaner fallback positions and steadier reviews.
- Cross border work

Coordinated counsel, security, product, finance, and customers across transactions. Calm issue tracking kept deadlines visible.
- Technology focus

Connected copyright, data use, and licensing language with product plans, helping stakeholders make sound choices for AI initiatives.

SUMMARY

Technology commercial counsel with more than six years of experience across a **technology transactions** law firm and in house SaaS organizations. Leads enterprise negotiations involving SaaS agreements, customer contracts, vendor arrangements, reseller relationships, partnerships, service levels, DPAs, data licensing, and cross border matters. Advises **Go to Market**, product, security, finance, privacy, and executive stakeholders with practical recommendations that balance commercial goals, legal risk, and deal momentum. Applies working knowledge of GDPR, **California privacy requirements**, other **United States state privacy laws**, intellectual property, copyright, and emerging AI regulation. Builds contract templates, negotiation playbooks, guidance, and repeatable legal workflows that support growth without weakening judgment. Brings precise drafting, independent ownership, and experience connecting legal positions with operational, financial, product, and customer outcomes across complex technology transactions.

EXPERIENCE

Senior Commercial Counsel

Northstar Cloud Labs July 2024 - Present Denver, Colorado

- Owns legal strategy for enterprise SaaS transactions, privacy reviews, AI data licensing, and cross border negotiations. Partners with commercial, product, security, finance, and executive teams while improving repeatable contracting practices for a growing technology business.
- Led enterprise SaaS negotiations across customer, vendor, reseller, partnership, and **service level agreements**.
 - Negotiated DPAs using GDPR and United States state privacy requirements for complex customer positions.
 - Built modular **contract templates** and **negotiation playbooks**, creating consistent fallback positions for recurring enterprise terms.
 - Structured AI **data licensing** provisions covering permitted use, ownership, copyright, confidentiality, privacy, and downstream restrictions.
 - Guided cross border negotiations with finance, security, product, counsel, and customer stakeholders under competing deadlines.
 - Advised **Go to Market** leaders on liability, data use, **intellectual property**, and service commitment risks.

Commercial Counsel

BluePeak Software May 2022 - June 2024 Boulder, Colorado

- Managed technology transactions for a B2B SaaS provider, advising sales, product, and legal stakeholders on enterprise agreements, privacy, **intellectual property**, and emerging **AI regulation**. Improved review consistency through practical guidance and contract process updates.
- Negotiated enterprise subscription, vendor, reseller, partnership, and **service level agreements** for a B2B SaaS provider.
 - Converted customer negotiation risks into clear options for pricing, implementation, renewal, and risk allocation discussions.
 - Negotiated **DPAs** covering GDPR, California requirements, and other **United States state privacy laws**.
 - Reviewed software, content, integration, and dataset terms for intellectual property and **copyright** alignment.
 - Reworked customer and vendor templates, improving drafting consistency across frequently negotiated provisions.
 - Translated early AI regulatory developments into practical guidance for product and commercial stakeholders.
