STRENGTHS

- 🏗️ **Transition Leadership**
Led multi site service transitions through testing and acceptance. Teams gained clearer ownership, and executives received decisions they could act on.
- ⚙️ **ITIL Process Design**
Established Incident, Change, Request, Configuration, and SLA practices. A practical process review often removed confusion before launch.
- ♥️ **Risk Governance**
Surfaced high risk dependencies early and framed remediation choices clearly. Stakeholders trusted updates because each issue had ownership.
- 💬 **Executive Communication**
Turned complex delivery details into concise reports and decisions. Leaders gained confidence during difficult cutover and acceptance discussions.
- 👥 **Team Mentoring**
Guided transition managers and service leaders through reviews and handoffs. Colleagues frequently sought advice on difficult delivery decisions.

SKILLS

ITIL Service Management

Service Transition

Incident Management

Change Management

Request Management

SUMMARY

IT service transition leader with 15 years of experience moving complex **managed services** from solution handoff through implementation, testing, acceptance, and stable steady state operations. Expert in **ITIL Service Management**, Incident Management, Change Management, Request Management, Configuration Management, SLA Management, service governance, operational readiness, project financials, and risk management. Leads multi site programs involving multiple products, service towers, facilities, staffing dependencies, **third party partners**, and geographically distributed teams. Builds **master transition plans**, guides transition managers, mentors service leaders, and communicates practical decisions to executives. Connects commercial commitments with technical readiness, service process deployment, partner coordination, and measurable acceptance outcomes across domestic and international delivery environments.

EXPERIENCE

Senior Director, IT Service Transition

Bluehaven Managed Services 📅 January 2022 - Present 📍 Austin, TX

Leads enterprise **service transitions**, transition managers, ITIL process deployment, financial controls, risk governance, partner coordination, and steady state acceptance across complex managed services.

- Directed enterprise transitions through implementation, **acceptance**, and steady state operations with clear governance controls.
- Built master plans covering scope, **schedule**, staffing, **facilities**, technical readiness, testing, partners, and service processes.
- Assessed high risk dependencies and presented practical remediation decisions through concise executive reporting forums.
- Coordinated transition managers and cross functional partners across service towers, delivery locations, and operational teams.
- Tracked **project financials**, service impacts, corrective actions, and acceptance criteria through structured management reviews.
- Strengthened team capability through mentoring, knowledge transfer, decision reviews, and consistent follow through.

IT Service Transition Director

Silver Oak Technology Partners 📅 April 2018 - December 2021 📍 Dallas, TX

Directed multi site managed service transitions involving third party partners, cutovers, ITSM readiness, executive governance, and coordinated delivery across products and geographies.

- Led multi site transitions from **setup** through **technical implementation**, testing, acceptance, and stable operations.
- Established transition plans connecting partner activity, **facility readiness**, **staffing dependencies**, schedules, costs, and service outcomes.
- Managed **complex dependencies** across products, service lines, **geographies**, suppliers, and cross functional delivery teams.
- Presented risk remediation options and financial impacts to executives during governance and acceptance reviews.
- Mentored transition managers through planning workshops, readiness checkpoints, cutover decisions, and operational handoffs.
- Translated complex requirements into practical transition documentation, reviews, decisions, and delivery controls.

Senior IT Service Manager

Crescent Ridge Digital Services 📅 June 2015 - March 2018 📍 Houston, TX

Managed ITIL service operations, onboarding, early life support, SLA governance, configuration readiness, supplier coordination, and operational acceptance for managed services.

MY CAREER

● Senior Director, IT Service Transition at Bluehaven Managed Services (4.8 Years)

● IT Service Transition Director at Silver Oak Technology Partners (3.7 Years)

● Senior IT Service Manager at Crescent Ridge Digital Services (2.8 Years)

● IT Service Manager at Prairie Bridge Technology Services (2.8 Years)

- Directed service onboarding and early life support using ITIL practices, readiness reviews, and acceptance criteria.
- Established **Incident Management**, Change Management, Request Management, **Configuration Management**, and SLA Management workflows.
- Coordinated supplier readiness, technical dependencies, operational documentation, and **service governance** across delivery groups.
- Prepared management reports covering progress, risks, financial effects, service impacts, and corrective actions.
- Resolved transition issues through cross functional reviews, documented decisions, and accountable follow through.
- Guided service leaders through knowledge transfer, process reviews, and stable operations handoff.

IT Service Manager

Prairie Bridge Technology Services 📅 July 2012 - May 2015 📍 San Antonio, TX

Managed core **ITSM** operations, onboarding, service improvement, SLA reporting, configuration practices, and cross team governance for technology service delivery.

- Directed Incident, Change, Request, Configuration, and SLA activities across active service delivery operations.
- Improved onboarding workflows through documented plans, readiness reviews, dependency tracking, and stakeholder decisions.
- Coordinated partners and internal teams during service changes, escalations, and operational improvement initiatives.
- Prepared concise reports on service performance, delivery risk, financial effects, and required corrective actions.
- Applied professional standards and controls that improved traceability, consistency, and **operational readiness**.
- Strengthened team capability through structured guidance, review sessions, and practical knowledge transfer.

Service Management Analyst

Pioneer Service Operations 📅 June 2011 - June 2012 📍 Round Rock, TX

Supported ITSM records, SLA reporting, onboarding actions, dependency tracking, knowledge transfer, and operational governance for service management teams.

- Maintained **ITSM** records and SLA reporting used during operational governance and service review meetings.
- Supported onboarding actions through status tracking, documentation updates, dependency reviews, and stakeholder follow up.
- Coordinated knowledge transfer activities that improved visibility across service teams and operational support groups.
- Escalated delivery risks with clear context, recommended actions, and documented ownership.
- Applied service standards and controls to improve record quality, traceability, and readiness reviews.
- Prepared management updates covering progress, service impacts, risks, and open corrective actions.

PROJECTS

Enterprise Service Transition Framework 📅 2022

Created a reusable transition framework connecting commercial handoff, master planning, technical readiness, testing, acceptance, partner coordination, and steady state service delivery.

Multi Site ITSM Readiness Program 📅 2020

Coordinated readiness practices across products, service towers, suppliers, and geographies, giving transition managers consistent checkpoints for operational acceptance.

LEADERSHIP & AWARDS

- Recognized for leading complex managed service transitions through stable acceptance and executive governance.

- Selected to mentor transition managers and service leaders across multi site delivery programs.
- Earned sustained stakeholder confidence through clear risk reporting, practical remediation, and accountable follow through.
