STRENGTHS

- 🛠️ **Mission Planning**
Integrated vehicles, aircraft, personnel, schedules, and manifests into clear plans that helped teams act with confidence.
- 🧠 **Operational Judgment**
When conditions changed, weighed cargo, safety, security, and delivery needs before recommending practical action.
- 👥 **Stakeholder Coordination**
Connected laboratories, contractors, defense partners, and program teams so packaging decisions moved forward smoothly.
- 🔒 **Information Security**
Protected classified transportation details through controlled records and clear user guidance, earning confidence from mission leaders.
- ♥️ **Courier Readiness**
Field courier experience brought a grounded view of readiness, documentation, cargo handling, and secure mission execution.

SKILLS

TSS Mission Planning
Decision Making Policy Guidance
Secure Transportation
Nuclear Materials
Hazardous Cargo Safety
Trip Manifests Delivery Scheduling
Material Compatibility
Special Handling
Interagency Coordination
DoD Coordination
Influencing and Negotiating
Planning and Evaluating

SUMMARY

Transportation management specialist with 15 years of experience supporting secure and regulated transportation missions, including prior **Nuclear Materials Courier** service and extensive **Transportation Safeguards System operations**. Plans complex movements by integrating vehicles, aircraft, qualified personnel, delivery schedules, itineraries, trip manifests, cargo requirements, and security controls. Provides authoritative policy guidance, resolves operational questions, and coordinates packaging, shipping containers, **hazardous cargo safety**, material compatibility, and special handling with federal, laboratory, contractor, defense, and program stakeholders. Protects **classified transportation information** through disciplined controls and practical user guidance. Applies technical competence, planning and evaluating, decision making, and influencing and negotiating skills to balance safety, security, resource use, and mission continuity. Prepared to contribute sound judgment and dependable coordination within a high risk national transportation program.

EXPERIENCE

Senior Transportation Management Specialist

Mesa Shield Logistics 📅 January 2022 - Present 📍 Albuquerque, NM

Leads integrated planning for **secure transportation** operations, providing policy interpretation, mission analysis, **classified information controls**, and practical direction for planners and stakeholders.

- Integrated vehicles, aircraft, personnel, manifests, and schedules into executable TSS mission plans.
- Issued **transportation policy** guidance that resolved operational questions for mission stakeholders.
- Resolved packaging and **material compatibility** issues through focused cargo and handling reviews.
- Established **special operating instructions** for changing security, safety, and delivery requirements.
- Reviewed TSS plans and coached planners through practical mission readiness decisions.
- Protected **classified transportation information** through controlled access and user guidance.

Transportation Program Specialist

Canyon Federal Transport 📅 March 2018 - December 2021 📍 Los Alamos, NM

Planned concurrent secure movements across laboratory, contractor, and federal environments, translating policy into field guidance while balancing cargo risk, schedules, resources, and information security.

- Planned concurrent secure movements around route, cargo, personnel, and delivery constraints.
- Analyzed route and cargo risks before approving practical movement recommendations.
- Translated **transportation policy** into field guidance that supported consistent mission execution.
- Coordinated laboratory and contractor decisions on **packaging** and shipping container matters.
- Protected classified mission information through disciplined records and communication controls.
- Balanced **nationwide schedules** with effective use of transportation and **personnel assets**.

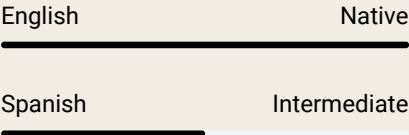

Nuclear Materials Courier

Sandia Ridge Operations 📅 July 2015 - February 2018 📍 Albuquerque, NM

Executed secure nuclear material movements while maintaining courier readiness, applying TSS knowledge, verifying documentation, protecting classified information, and contributing field insight to procedural improvements.

- Executed nuclear material movements through documented TSS procedures and readiness checks.
- Maintained courier readiness for changing routes, cargo conditions, and mission requirements.
- Applied **TSS** knowledge when operational conditions required sound field decisions.

LANGUAGES

MY CAREER

- Senior Transportation Management Specialist at Mesa Shield Logistics (4.7 Years)
- Transportation Program Specialist at Canyon Federal Transport (3.8 Years)
- Nuclear Materials Courier at Sandia Ridge Operations (2.6 Years)
- Secure Transportation Coordinator at High Desert Secure Mobility (2 Years)
- Transportation Operations Specialist at Frontier Cargo Services (1.9 Years)

- Verified cargo, manifests, and movement documentation before **secure transportation** activities.
- Protected classified operational information during mission preparation and field execution.
- Contributed courier lessons to procedural refinements that supported safer mission delivery.

Secure Transportation Coordinator

High Desert Secure Mobility 📅 June 2013 - June 2015 📍 Kirtland, NM

Coordinated vehicle, personnel, manifest, schedule, and controlled record readiness for secure transportation operations, building practical expertise in cargo safety and mission support.

- Coordinated vehicle and personnel readiness before scheduled **secure transportation** movements.
- Reviewed manifests and handling instructions against cargo and mission requirements.
- Tracked resource availability so planners could address readiness gaps early.
- Maintained controlled transportation records under established security and safety procedures.
- Adjusted schedules around operational constraints without losing delivery visibility.
- Built **cargo safety** expertise through daily secure transport coordination.

Transportation Operations Specialist

Frontier Cargo Services 📅 June 2011 - May 2013 📍 Albuquerque, NM

Supported regulated cargo operations through dispatch planning, load matching, movement records, disruption review, and stakeholder coordination, establishing a strong foundation in **secure transportation**.

- Scheduled regulated cargo movements around equipment, personnel, and delivery requirements.
- Matched loads with equipment and handling needs before dispatch release.
- Prepared daily movement plans that gave stakeholders clear execution direction.
- Investigated shipment disruptions and documented practical recovery recommendations.
- Maintained transportation records and applied established safety practices consistently.
- Developed dispatch, manifest, and stakeholder coordination skills through daily operations.

PROJECTS

National Secure Movement Scheduling 📅 2024

Built a nationwide scheduling approach for concurrent secure movements, balancing delivery requirements, personnel availability, transportation assets, cargo controls, and special operating instructions.

Classified Transportation User Guidance 📅 2023

Created practical guidance for users handling classified transportation information, linking access controls, mission procedures, security expectations, and safe operational decisions.

Packaging Compatibility Review 📅 2021

Coordinated a packaging review involving cargo requirements, material compatibility, shipping containers, hazardous safety concerns, laboratories, contractors, and program stakeholders.

LEADERSHIP & AWARDS

- Recognized by transportation leadership for dependable resolution of complex secure movement questions.
- Selected as a trusted planner and mentor for TSS mission reviews and operational guidance.
- Commended for consistent protection of classified information during high risk transportation operations.

EDUCATION

Bachelor's Degree in Logistics and Supply Chain Management

New Mexico State University 🎓 GPA: 3.5 📅 2011 📍 Las Cruces, NM

Coursework: *Transportation planning, supply chain management, logistics analysis, operations management*

CERTIFICATIONS

- Hazardous Materials Transportation Training 📅 2026

- Classified Information Security Refresher Training 📅 2026
- Q Access Authorization 📅 2026

TECHNICAL SKILLS

- **Transportation Systems:** Transportation Safeguards System, secure transportation, nuclear materials transportation
- **Mission Planning:** integrated planning, movement planning, operational planning
- **Cargo Operations:** trip manifests, delivery schedules, load requirements
- **Hazardous Materials:** hazardous cargo safety, material compatibility, special handling
- **Security Controls:** classified information controls, controlled records, access controls
- **Policy Guidance:** transportation policy, special operating instructions, user guidance
- **Stakeholder Coordination:** interagency coordination, DoD coordination, contractor coordination
- **Courier Operations:** Nuclear Materials Courier operations, courier readiness, secure movements
- **Risk Analysis:** route risk analysis, cargo risk analysis, operational risk review
- **Resource Planning:** vehicle allocation, aircraft coordination, personnel utilization
- **Compliance Requirements:** Q Access Authorization, background investigation, suitability review
- **Federal Operations:** federal transportation missions, national programs, defense coordination

PROFESSIONAL AFFILIATIONS

- Transportation Safeguards System planning community, supporting shared mission practices and peer consultation.
- Secure transportation professional network, exchanging practical insight on cargo safety and operational readiness.
