

Luciana Bowers

Water Resources Intern

AUGUST 15, 2026

Hiring Manager
Civic Engineering Services
Aurora, IL

Dear Hiring Manager,

I am excited to express my interest for Water Resources Intern at Civic Engineering Services, a company recognized for its advanced engineering solutions that shape communities and improve infrastructures while nurturing its workforce with opportunities to grow and excel.

Having pursued a civil engineering degree, I've embraced every chance to explore this ally of mine. Once, I spearheaded a water management project, rallying my team to innovate sustainable practices while offering vital assistance to our local community, all under the watchful gaze of deadlines.

Civic Engineering Services' commitment to excellence resonates with my values. I thrive on collaboration and problem-solving, always eager to enhance my practical skills and connect with industry professionals who share my passion for impactful work.

Through my role as a Water Resources Project Developer, I cultivated skills that hinge on technical communication and analysis. Helping peers with their unique challenges taught me invaluable lessons in teamwork and adaptability.

I foresee my internship experience melding beautifully with the opportunities at Civic Engineering Services. With a blend of creativity and diligence, I am poised to support your mission in producing remarkable infrastructure solutions that contribute to community wellbeing.

I look forward to discussing how I may contribute to your team.

Sincerely,

Luciana Bowers
