Hiring Manager
Aerotek
Addison, IL

Dear Hiring Manager,

I am genuinely excited to express my interest in the Welder position at Aerotek, where it feels like just the right opportunity opens up for me, blending my skills with the enthusiasm I have for collaborating on impactful projects and learning from seasoned professionals who are passionate about their craft.

Aerotek's commitment to excellence resonates with my journey so far, having developed strong welding abilities and proficiency in blueprints, while maintaining safety in dynamic environments like Midwest Fabrication, where I took pride in adhering to stringent quality expectations alongside incredible experts.

Working at Southside Welding Co., I found how crucial communication was during fabrication, as I learned basic TIG techniques while meeting production goals that challenged me, yet inspired growth, all while aiming for high standards and achieving them with regular collaboration.

As a recent graduate from Northwest Welding Academy, I gained a wealth of experience that not only honed my technical skills but also taught me resilience, enabling me to tackle complex projects with grit, both in simulations and real-world applications across various materials.

Joining Aerotek excites me because of the chance to work within a union shop, a place where I can enhance my career trajectory and contribute to collective goals, all while settling into a vibrant culture that aligns well with my professional aspirations and dedication to safety.

Eager to contribute,

Thanks,

Julian Frazier
